CHINA LANZHOU INVESTMENT AND TRADE FAIR 中国兰州 投资贸易洽谈会

中国兰州投资贸易洽谈会(以下简称兰洽会)是我国向西开放的重要窗口、促进东中西部合作的重要桥梁、对外经贸往来的重要平台。自 1993 年开始,每年举办一届,迄今已成功举办 31 届,为甘肃省深度融入共建“一带一路”、深化区域经贸合作、推动经济高质量发展发挥了重要作用。

多年来,兰洽会始终坚持“开放、开发、合作、发展”宗旨,紧密联系周边省份及国际合作伙伴,持续推动区域协作健康发展,经贸投资合作“朋友圈”日益扩大,先后邀请白俄罗斯、匈牙利、阿联酋、沙特阿拉伯、泰国、印度尼西亚等多个国家担任主宾国,国际合作能级显著提升。围绕甘肃重点产业链,举办专题招商活动,联合国家重点商协会、经贸促进机构共同组织产业项目对接,深化央地合作、地企合作,项目投资金额屡创新高,招商引资实效持续增强;设置丝绸之路国际合作、区域合作交流、特色优势产业、时尚消费品及外贸优品、地道“甘味”展区等 5 大展区,区域特色优势进一步彰显。

站在新的起点,甘肃省委、省政府将深入贯彻党的二十大和二十届历次全会精神,全面落实习近平总书记视察甘肃重要讲话重要指示精神,完整准确全面贯彻新发展理念,加快构建新发展格局,聚焦建设开放强省目标,深度融入高质量共建“一带一路”和西部陆海新通道建设,着力强化甘肃在国家向西开放布局中的战略通道地位,以全方位开放有效激发发展活力。

PREVIOUS SESSIONS 往届回顾

2025

第三十一届兰洽会

以“共享机遇、共谋发展、共创繁荣”为主题，深入贯彻落实绿色、节俭、安全、高效的办会理念，全面融入高质量共建“一带一路”大局，特邀印度尼西亚为主宾国，精心设置丝绸之路国际合作、区域合作交流等4大展区，广泛邀请来自全球50个国家（地区）的政府、商协会和国际组织，国内28个省（区、市）、3个重点城市和港澳台地区，以及4000余家企业参加兰洽会，参会宾客超过4万人。会期，立足甘肃“生态屏障、能源基地、战略通道、开放枢纽”功能定位，精心组织中央企业与甘肃融合发展对接洽谈活动、新能源及新能源装备产业投资发展对接活动、长三角知名企业家陇上行活动、知名闽商陇上行活动等一系列高水平经贸对接与展览展示活动，全面推动“甘肃所能”与“企业所需”精准对接。签约合同项目1000多个，签约额较上届增长7.64%，有力促进全省产业结构持续优化，为全省经济社会高质量发展注入新动能。

2026

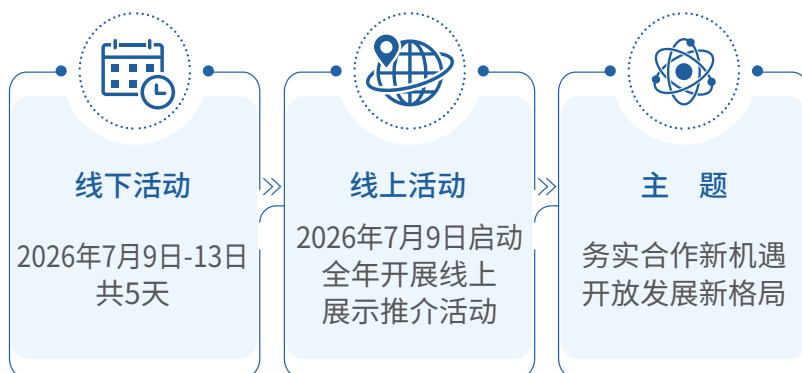

第三十二届兰洽会

以“务实合作新机遇，开放发展新格局”为主题，深度融入“一带一路”和西部陆海新通道建设，立足兰洽会综合性开放合作平台定位，突出资源精准对接、产业深度融合，持续促进向西开放提质、东中西部互动协作升级，全力扩大招商引资实效、提升经贸合作水平，为加快建设开放甘肃、活力甘肃，推动全省经济社会高质量发展注入强劲动力。

宾客邀请

邀请“一带一路”沿线国家（地区）政府及有关国际组织代表、外国驻华使领馆代表、兄弟省（区、市）和香港、澳门有关机构代表，重要商协会和侨领侨商代表，央企、“三类500强”企业、跨国公司、行业领军企业、重点上市公司、“专精特新”企业参会。

• 主办单位

甘肃省人民政府

• 承办单位

兰洽会组委会

• 主宾国

巴基斯坦
韩国

• 主题市

兰州市
武威市
天水市
平凉市

MAIN ACTIVITIES

主要活动

(一) 开幕式

拟邀请党和国家领导人、主宾国部长级官员、省主要领导、央企及民企代表发表演讲或致辞。

(二) 国际投资合作活动

1. “绿色中国·投资甘肃”外商投资对接活动

围绕“双碳”目标，邀请跨国公司与国际代表参会，推介甘肃投资环境与政策，组织新能源、先进制造等领域项目对接，推动外资落地与绿色产业链融入。

2. 中国（甘肃）—RCEP 特色农产品贸易合作对接会

以特色农产品贸易合作为切入点，深化甘肃与 RCEP 成员国经贸合作。同期成立“RCEP 甘肃特色农产品行业合作理事会”，打造 RCEP 合作“甘肃模式”。

3. “一带一路”国际商事法律合作暨中亚经贸投资及跨境争议解决（黄河）对话会

邀请中亚及周边国家代表，围绕营商环境、投资风险、纠纷解决等议题开展研讨，推动法律合作与协议签署。

4. “港澳台企业甘肃行”产业合作与考察活动

邀请港澳台知名企业家代表，开展精准产业链专题招商推介与洽谈。并组织与会代表赴相关市（州）实地考察，不断深化陇港澳台经贸合作。

（三）区域投资合作活动

1. 甘肃省与中央企业融合发展恳谈会

邀请有意在甘投资的央企，围绕特色产业和新兴产业开展对接洽谈，推进央地优势互补、融合发展。

2. 中国石油和化学工业联合会项目投资对接活动

邀请国内外行业龙头及重点会员企业代表，结合我省石化化工产业资源优势与承接产业转移需求，开展专题推介与对接洽谈，推动甘肃产业绿色转型和高质量发展。

3. 东西部协作暨产业转移合作对接活动

邀请国家级行业协会、东中部重点区域企业、投融资机构、本地企业及园区代表，聚焦石化化工、有色冶金、装备制造等重点领域开展对接，推动产业合作，促进产业集群发展。

4. 长三角知名企业家“陇上行”招商对接活动

邀请长三角地区企业家，围绕先进制造、新能源、数字经济等重点产业开展推介洽谈，并分组赴相关市（州）考察对接，推动产业合作。

5. 鲁商“陇上行”招商对接活动

邀请国内外鲁商代表，围绕高端制造、智慧农业、新能源装备等领域开展对接，并组织赴相关市（州）考察，推动鲁企与甘肃优势资源结合。

6. 秦商“陇上行”招商对接活动

邀请国内外秦商代表，聚焦旱作农业、新能源装备、生物医药、文化旅游等方向开展对接，并组织赴相关市（州）考察，促进产业链协作与文旅融合。

7. 科技招商暨成果转化交流对接会

围绕打造区域性科技创新转化基地，邀请院士专家、科技企业、高校及金融机构代表，开展成果发布、对接签约等活动，加速科技成果在甘落地转化。

8.2026 甘肃省矿业权出让项目招商对接活动

邀请省内外矿山企业，对接优质矿产资源及拟出让矿业权，宣传招商政策并举行签约仪式，助推找矿突破战略行动。

9. “聚力陇商·共赢未来” 投资合作恳谈会

邀请全国异地甘肃商会、在甘异地商会及甘肃驻外商务代表处代表，聚焦甘肃产业机遇与招商方向，开展交流、考察及项目对接，助力全省招商引资新格局。

10. “黄河之夜·电商荣耀” 甘肃电商高质量发展洽谈活动

邀请电商头部主播及省内电商代表，聚焦“数商兴农”与“人才培养”，展示甘肃电商成果，打造以数字经济、平台建设与产业发展为核心的电商新生态。

11. “智汇金城·产研共融” 兰州大学校地企协同创新合作对接活动

邀请全球兰州大学知名校友齐聚兰州，围绕“双招双引”与校地、校企合作，开展政策推介、产学研对接、发展建言等活动，搭建校企多方资源共享对接平台，凝聚校友兴业甘肃共识，促进“产学研投融”深度融合，助力甘肃产业发展。

（四）主宾国、主题市经贸交流活动

主宾国举办国家馆开馆仪式和相关会见活动。

主题市聚焦自身特色优势产业，举办“2026 兰州高质量发展招商对接会”等专场招商对接活动，并配合长三角知名企业家、鲁商、秦商“陇上行”活动开展考察洽谈和经贸对接活动。

（五）展览展示活动

1. 丝绸之路国际合作展区

邀请“一带一路”沿线国家和地区政府、境外组织参展，展示国家和地区形象、合作领域和重大项目，促进投资洽谈和大宗商品贸易。

2. 区域合作交流展区

邀请各省（区、市）政府组团参展，展示当地投资环境、重点产业、投资项目和特色产品，开展经贸合作洽谈。

3. 特色优势产业展区

共设 16 个展馆，包括 14 个市（州）产业馆、1 个陇酒品鉴馆和 1 个甘肃省民族特色馆，集中展示“十四五”招商引资成果，推介我省特色优势产业。

4. 时尚消费品及外贸优品展区

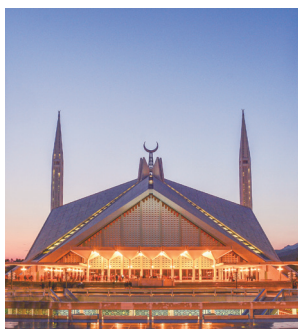

在南广场设置展区，重点展示展销进口商品及省内外名优特产品。

5. 地道“甘味”展区

在南广场设置特装展区，同步开展路演、品鉴、销售等活动。

GUEST COUNTRIES OF HONOR 主宾国

巴基斯坦

巴基斯坦位于南亚次大陆西北部。东接印度，东北与中国毗邻，西北与阿富汗交界，西邻伊朗，南濒阿拉伯海。海岸线长 980 公里。全国共有旁遮普、开伯尔—普什图赫瓦、俾路支、信德 4 个省和伊斯兰堡联邦首都直辖区。各省下设专区、县、乡、村联会。

巴基斯坦人口 2.4 亿（2025 年 12 月），是多民族国家，其中旁遮普族占 63%，信德族占 18%，普什图族占 11%，俾路支族占 4%。乌尔都语为国语，官方语言为乌尔都语和英语，主要民族语言有旁遮普语、信德语、普什图语和俾路支语等。95% 以上的居民信奉伊斯兰教（国教），少数信奉基督教、印度教和锡克教等。

巴基斯坦经济以农业为主，农业产值占国内生产总值 24.03%。2024—2025 年国内生产总值为 4110 亿美元，同比增长 2.68%，人均国内生产总值 1824 美元。

韩国

大韩民国简称韩国，是东亚国家，首都首尔。位于亚洲大陆东北部、朝鲜半岛南半部，为半岛国家。国土面积10.046万平方公里，境内以山地为主，东、南、西三面环海，平原主要分布在西部和南部。全国划分为1个特别市、4个特别自治市（道）、6个道和6个广域市。

韩国人口约5115万（2025年9月），为单一民族，通用韩国语。约50%的人口信奉佛教、基督教、天主教等宗教。作为世界第十三大经济体，韩国是二十国集团和经济合作与发展组织成员国，同时也是世界贸易组织创始国之一。20世纪60年代起经济高速增长，创造了“汉江奇迹”的经济增长典范，制造业和服务业发达，造船、汽车、电子等产业产量位居世界前列。

韩国是亚太经合组织、东盟“10+3”等机制重要成员，也是联合国会员国。2024 年国内生产总值约 1.87 万亿美元，人均国内生产总值 3.6 万亿美元，对外贸易总额约 1.32 万亿美元，与 180 多个国家和地区保持经贸往来，中国是其最大贸易伙伴国。

THEME CITIES 主题市

兰州市

兰州是甘肃省省会，地处中国陆域版图几何中心，是西部地区重要中心城市、全国性综合交通枢纽城市、西北先进制造业基地、区域性科技创新高地。现辖城关、七里河、西固、安宁、红古 5 个区和永登、榆中、皋兰 3 个县，以及国家级兰州新区、兰州高新技术产业开发区和兰州经济技术开发区，总面积 1.31 万平方公里。

兰州是“座中六联”的交通枢纽，处于大西北“十字路口”，是全国 9 大物流区域、10 大物流通道和 21 个物流节点城市之一，是新亚欧大陆桥和我国面向中亚、西亚、南亚的战略通道。作为国家重要的科研教育基地，兰州拥有 1228 家科研机构，其中包括以兰州大学、中国科学院兰州分院、驻兰央企为主力的科研“新四军”重点单位 142 家，各类高等院校 31 所，以重离子加速器为代表的国家实验室 1 个，全国重点实验室 12 个；拥有国家级企业技术中心 10 个，国家级工程技术研究中心 3 个，两院院士 43 名，创新创造活力持续迸发。

重点产业招商方向

01 加快培育都市经济

充分发挥都市经济在区域经
济中的龙头带动作用，加快构建特
色优势鲜明、主导产业突出、带动
能力显著的都市型现代化产业体系。

02 持续壮大县域经济

以产业发展做强做大做优县
域经济，加快实现强县域目标。

03 提质升级开发区经济

集中资源要素抓产业、抓项目、抓发展，培育壮大优势产业集群，打造经济发展主阵地。

05 做优做强数字经济

聚焦数字产业化、产业数字化、数据价值化、治理智能化协同发展，持续提升数字经济综合竞争力。

04 大力发展民营经济

严格落实民营经济促进法，以更大力度推动民营经济健康发展、高质量发展。

06 多元拓展开放经济

培育外贸经营主体，推动综合保税区做强保税加工、物流、研发等“保税+”多元业态。加快国际陆港“港产城”一体融合发展，构建枢纽经济体系，打造国家向西开放枢纽陆港和新型枢纽经济先行区。

重点推介项目

01. 永登县钛锂高能动力电池生产项目

产业：新能源

内容：建设3条年产共3Gwh的高能动力电池自动化生产线，进行电芯组装

合作：独资 / 合资 / 合作

效益：预计年均产值18.3亿元，利润率24%

02. 兰州商业航天产业项目

产业：装备制造

内容：依托510所引进配套企业，构建“核心配套—终端制造—数据应用—航天文旅”全产业链

合作：独资 / 合资 / 合作

效益：带动上下游集聚，打造“航天兰州”名片

03. 兰州国际陆港冷链物流及食品加工项目

产业：商贸物流

内容：占地271亩，建设多温商品仓储加工区、智能电商集散中心及加工展销区，打造集生鲜、进口食品、药品、生物制品为主要品类的综合智慧冷链物流聚集地。

合作：独资/合资/合作

效益：打造西北区域重要的智慧冷链物流与食品加工集聚高地。

联系人：曾俊巍 17693137899

武威市

武威位于甘肃省中部、河西走廊东端，是中国旅游标志——马踏飞燕的出土地，是国家历史文化名城、中国优秀旅游城市、中国葡萄酒城，史有“五凉京华、河西都会”之美誉，是一片文化厚地、一个资源宝地、一块生态要地、一方精神高地。现辖凉州区、民勤县、古浪县和天祝藏族自治县。武威历史悠久厚重，文化底蕴深厚。公元前 121 年，汉武帝派骠骑将军霍去病远征河西，击败匈奴，为彰其“武功军威”命名武威。有中国旅游标志铜奔马、西藏归属中央政府行政管辖的历史见证地凉州白塔寺、“石窟鼻祖”天梯山石窟等珍贵历史文化遗存。武威地理区位优势。地处亚欧大陆桥咽喉地段，兰新铁路、连霍高速贯穿全境，兰武高铁通车运营，一小时直达中川机场，是服务全省、辐射西北、连接亚欧的向西开放国际物流节点城市。武威产业特色鲜明。农业资源得天独厚，奶牛、羊、猪饲养量和蔬菜、食用菌、藜麦产量均居全省第一，被誉为中国食用菌、高原夏菜、肉羊、蜜瓜、人参果、茴香之乡，农业增加值连续 12 年居全省第一。生态工业势头强劲，特色农产品加工产业集群入选省级先进制造业集群，全市规划风光电可开发容量 1.2 亿千瓦以上，建成及在建装机规模 2380 万千瓦，居全省第 2 位。医养产业独具优势，拥有全国首台自主知识产权的重离子治疗肿瘤系统。2025 年，全市实现生产总值 802.3 亿元，一二三产增加值分别达 259.1、162.7、380.4 亿元，社会消费品零售总额 162.6 亿元，城乡居民人均可支配收入 41856 元、19730 元。

重点产业招商方向

01 新能源产业

全市规划风光电可开发容量 1.2 亿千瓦以上，以现有建成及在建装机规模，重点开发建设风光电基地、新能源装备制造、新材料产业项目，投资发展新能源产业大有可为。

02 食品工业

依托全市畜禽存栏、农产品产量均居全省第 1 位的优势，着力引进奶产业集群项目、食用菌全产业链开发项目，发展特色农牧产业前景广阔。

03 文旅产业

武威是“美丽中国·最佳全域旅游休闲目的地”，全市着力打造文化旅游业支柱产业，主要引进文旅综合体项目、机场扩建项目、天梯山文化旅游开发项目，打造文旅支柱产业潜力无限。

重点推介项目

01. 河西走廊黄金奶源基地武威市百亿级奶产业集群项目

所属奶产业，投资额 36 亿元。拟引进饲草料种植基地建设项目、奶牛生态养殖产业园区建设项目、乳制品精深加工建设项目。

02. 源网荷储一体化示范项目

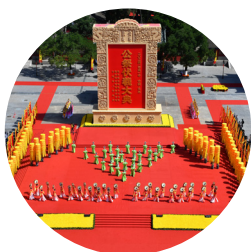

所属新能源及装备制造产业，投资额 69 亿元。项目规划建设风电 300 兆瓦、光伏 200 兆瓦，配套建设 120 兆瓦储能时长为 2 小时的储能设施。

03. 60 万吨电石生产线项目

所属精细化工产业，投资额 55 亿元。利用本地丰富的石灰石资源，建设 60 万吨电石生产线，按照循环经济发展模式，加快资源开发利用。

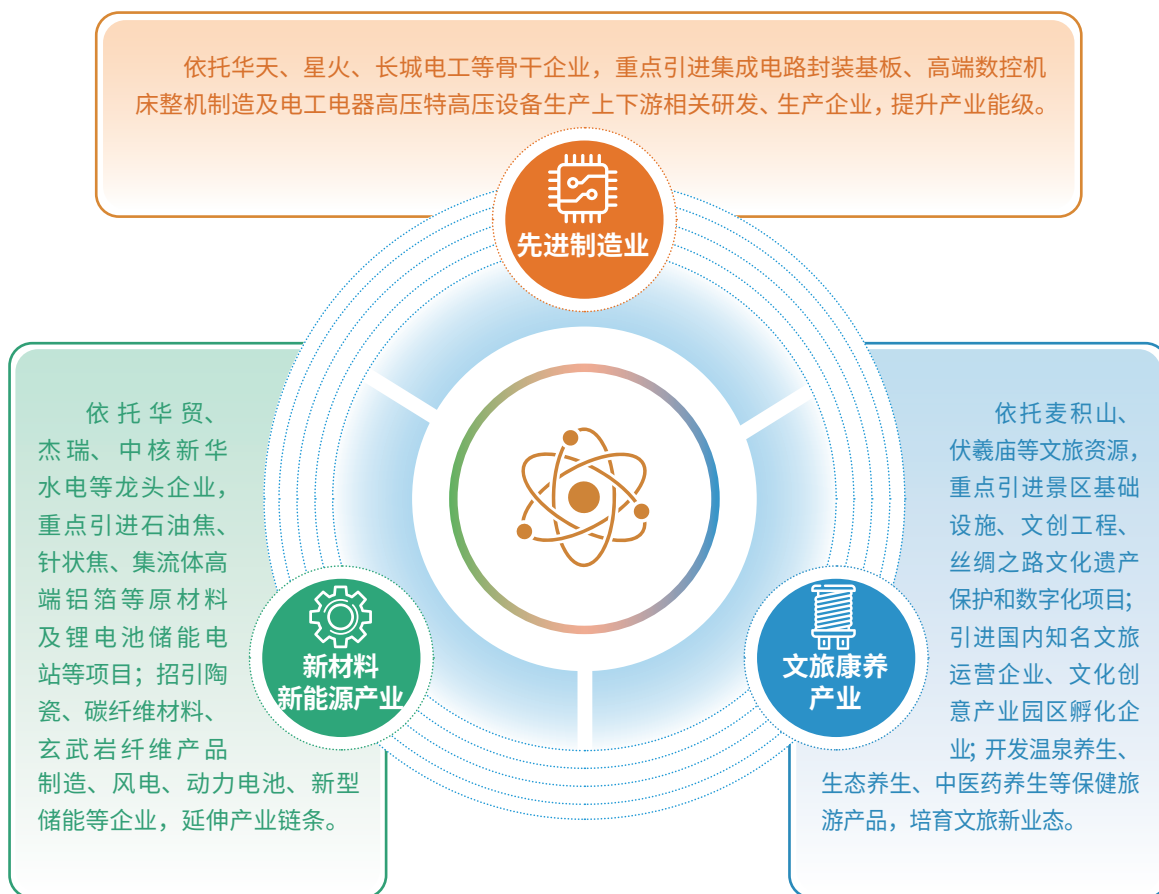

联系人：刘爱国 15109353399

天水市

天水地处甘肃东南部，是丝绸之路经济带、关中平原城市群重要节点城市。总面积 1.43 万平方公里，户籍人口 367 万。天水作为国家首批历史文化名城，素有“羲皇故里”之称，是全球华人寻根祭祖圣地；麦积山石窟“东方微笑”跨越千年，列入世界文化遗产名录。天水麻辣烫火爆全网，上榜“十大魅力打卡之城”“中国美好焕新城市”。气候温润，是北方优质果蔬和西部航天育种基地，花牛苹果又大又红、秦安蜜桃、秦州大樱桃、甘谷辣椒等甘味农产品特色鲜明。作为老工业基地，是国家先进制造业宝汉天工业母机集群重要一员，形成以集成电路、电工电器、机械制造为支撑的产业格局，华天电子集团是全球第六的集成电路封测领军企业，星火机床为全国工业母机重点产业链链主企业。当前，天水正聚焦“三区一地一中心”发展定位，以新质生产力为引领，推动传统产业改造升级、新兴产业加快培育、未来产业前瞻布局，加速构建现代化产业体系，诚邀各界投资兴业、共促发展。

重点产业招商方向

重点推介项目

01. 卦台山伏羲始祖文化旅游产业园

所属文旅康养产业链，依托始祖文化旅游资源，建设伏羲文化寻根祭祖圣地，投资额 30 亿元。

02. 甘谷县新能源锂电池生产封装建设项目

所属新能源产业链，建设锂电池生产、配件加工、组装封装基地，延伸杰瑞新能源产业链条，投资额 12 亿元。

03. 中国·天水安粮全链基地项目

所属特色农产品及食品产业链，依托国家级军民两用农产品数智调配中心，建设加工，仓储和调配枢纽，打造零碳园区，投资额 30 亿元。

联系人：程小芳 15309385330

平凉市

平凉地处甘肃省东部、陕甘宁三省（区）交汇处，总面积 1.1 万平方公里，常住人口 177.27 万人。正在聚力打造全省工业转型发展创新区、西部现代精品农业样板区、西北文旅康养融合先行区、全国生态文明建设先进城市。

平凉是资源宝地。煤炭探明储量 110 亿吨，产能 2973 万吨，火电装机容量 613 万千瓦，探明石灰石储量 30 亿吨，冶镁白云岩矿 7 亿吨以上。平凉是兴农旺地。平凉红牛年饲养量 108 万头，品牌价值 223 亿元。静宁苹果种植面积 151 万亩、年产量 270 万吨，品牌价值 181 亿元。平凉是生态福地。有国家 5A 级旅游景区崆峒山等自然人文景观 100 多处，年均气温 8.5℃，林草覆盖率 46.1%，荣获中国避暑旅游优选地，获评“全国十大大暑节气生态文旅品牌”。平凉是投资高地。交通便捷、物流通达，建成标准化厂房 64 万平方米，电价不超过 0.45 元，工业用水 1.5 元 / 吨，年可利用工业蒸汽 700 万吨，人力资源充足，综合成本优势明显。

重点产业招商方向

01 煤炭清洁高效利用产业链

重点招引甲醇下游甲醛、醋酸、烯烃、甲醇制汽油、防冻剂等，以及聚丙烯下游包装、汽车、医疗等延链补链企业，推动煤炭资源向燃料原料并重转型，全产业链向高端化、精细化延伸。

02 镁基新材料产业链

紧盯金属镁资源开采、冶炼加工、高端应用全链条，打造上下游协同发展的产业集群。

03 生物制造产业链

聚焦玉米淀粉和植物原料提取下游产业链，引进生物发酵、植物提取等行业企业，打造形成西部乃至全国重要的合成生物生产基地。

04 平凉红牛产业链

积极引进饲料加工、智能化养殖装备（如精准饲喂系统、粪污处理设备）等生产企业。

05 静宁苹果产业链

重点招引标准化种植、精深加工、市场销售、冷链仓储、苹果废弃物资源利用等方面的项目。

06 文旅康养产业链

重点招引高端文旅载体提档升级、森林避暑度假业态、中医康养体验产品链延伸、温泉康养产业、旅居康养业态升级与服务配套、旅游演艺赛事文旅活动品牌打造、数字文创培育与产业新业态拓展、低空经济培育与文旅融合发展等。

重点推介项目

01. 平凉工业园区生物制造产业链项目

计划引入生物发酵、生物医药、食品及保健品加工等子链项目，建成玉米—玉米淀粉—淀粉糖—各类发酵制品及下游产品”为主线的产业链条。

02. 静宁县汽车零部件产业园建设项目

项目拟用地 400 亩，主要建设标准化厂房 10 座，依托沪佑正通、豪斯特、静宁时代科技等汽车零部件头部企业，引进各类汽车零部件生产制造企业。

03. 灵台县 500 万吨 / 年煤炭分质分级多联产示范项目

计划建设年产 48 亿 Nm³ 合成气（CO+H₂）联产 23 万吨 LNG 的气体动力平台项目、合成气制 70 万吨 / 年合成氨联产尿素和三聚氰胺项目、合成气制 60 万吨 / 年高端新材料项目。

联系人：李 伟 18719607051

OVERVIEW OF CITIES AND AUTONOMOUS PREFECTURES

市州推介

嘉峪关市

嘉峪关市是古丝绸之路要冲、国家“一带一路”重要节点城市，全国唯一以长城命名的地级市，为明代万里长城西端起点，也是国家重要冶金工业基地与现代化工业旅游生态城市。依托“两区一城一地”定位，实施“工业强市、文旅兴市、生态立市”战略，拥有嘉峪关关城等世界文化遗产，形成“长城+戈壁+冰川”特色景观。工业基础雄厚，坐拥酒钢、中核四〇四等骨干企业，营商与交通优势明显，是西部投资兴业热土。

重点产业招商方向

01 钢铁装备制造及金属新材料

重点引进精深加工、高端特种钢材、精密零部件、金属复合材料等领域项目。

02 电解铝及铝制品加工

重点引进高附加值铝箔坯料、特种铝材、多金属复合材料、再生铝及精深加工项目。

03 核技术应用及装备制造

重点引进民用核技术应用、核装备制造、核级材料研发、核技术服务等领域项目。

重点推介项目

01. 宏电铁合金 5 万吨金属镁锭生产线建设项目

建设年产 5 万吨金属镁锭生产线，集原料制备、煅烧还原、精炼及环保除尘于一体，投资金额 6.5 亿元。

02. 不锈钢钛产业延链合作项目

引进 3 万吨钛坯线，采用 VAR+EB 双联工艺，产 10-20 吨级高端钛材，投资金额 4 亿元。

03. 嘉峪关长城第一墩改造提升工程

依托长城第一墩及峡谷景观，打造丝路驿站、崖壁美术馆等艺术展陈与休闲空间，投资金额 1 亿元。

联系人：张雪斌 13993772066

金昌市

金昌市总面积 9600 平方公里，人口 43.2 万，城镇化率 80.54%。2025 年地区生产总值增速 9.3%，人均达 15.7 万元。素有“中国镍都”之称，镍储量全球第三，铜，钴储量全国第二，稀贵金属储量全国领先，风光电可开发规模超 1500 万千瓦。产业体系完备，制造业门类齐全，新能源原材料与化工产业优势明显。国家级经开区配套完善，科研实力雄厚，立体交通便捷。驻金省属企业金川集团位居世界 500 强第 235 位，投资兴业优势突出。

重点产业招商方向

01 有色金属新材料产业

重点引进镍基超级合金、高精密电子铜、负载催化剂、钛材深加工等高附加值产品加工项目。

02 新能源和新能源电池产业

重点引进电芯、正极材料、电解液、氢燃料电池、固态半固态电池等项目。

03 未来产业

重点招引新能源耦合材料、新型超导材料等未来材料项目，氢能等未来能源项目和低空经济等未来空间项目。

重点推介项目

01. 锂电池正极材料生产项目

总投资 15 亿元，拟引进企业建设年产 5 万吨磷酸铁锂或镍钴锰酸锂电池正极材料生产线。

02. 钛材深加工项目

总投资 13 亿元，拟引进企业建设冷轧钛卷、钛合金、钛焊管以及钛制结构件生产线。

03. 阻燃剂生产项目

总投资 4 亿元，拟引进企业建设年产 3 万吨新型环保阻燃剂和高性能环保无卤聚酯阻燃剂生产线。

联系人：崔昌荣 18009457794

酒泉市

酒泉因“城下有泉、其水若酒”而得名，总面积 19.2 万平方公里，是敦煌飞天的故里、现代航天的摇篮、新中国石油工业和核工业的发祥地。全市绿电资源富集，新能源装机突破 4000 万千瓦，“风光热储氢网”全产业链加速成势。蔬菜制种供种量和出口量占全国 50%，花卉制种供种量占全国 70%。已发现矿产 97 种，其中钒、铬等 15 种资源量居全省第一。现代化工产业基雄厚，石油化工、煤化工、精细化工、氟化工多元发展。文旅资源富集，莫高窟等世界文化遗产享誉全球。陆港型国家物流枢纽加快建设，航天航空、核及核关联、数字经济、生物医药等新兴产业前瞻布局。2025 年全市 GDP 突破 1100 亿元，人均超全国平均水平。

重点产业招商方向

围绕“绿电+”产业链攻坚突破，现代农业、新能源装备制造、现代化工、矿产资源开发利用、通道物流和文旅六条传统产业链延链补链，航天航空、核及核关联、数字经济和生物医药四大新兴产业链建链强链，构建“1+6+4”产业链招商作战体系。

重点推介项目

01. 酒泉经开区 5GWh 储能系统集成和 PCS 系统集成生产项目

建设 5GWh 构网型高压级联储能集成生产线 2 条和 1GW 构网型 PCS 系统集成生产线 1 条。

02. 玉门市年产 5000 吨含氟聚合物薄膜项目—巨化上下游项目

建设年产 2000 吨 FEP 薄膜、1500 吨 PTFE 薄膜、1500 吨 PVDF 薄膜生产线，配套仓储设施、环保处理系统等。

03. 瓜州县 15 万吨绿色甲醇项目

建设年产 1.35 万吨电解水制氢工厂及配套的储氢、储氧设备，年处理 15 万吨生物质气化工厂。

联系人：王 莉 13369371897

张掖市

张掖地处河西走廊中部，素有“金张掖”之美誉。国土面积 3.86 万平方公里，常住人口 110 万人，是国家西部生态安全屏障。2025 年 GDP 达 724 亿元。农业优势突出，全国每两粒玉米种子就有一粒产自张掖，绿色蔬菜产量全国第四；风光能源、矿产资源富集，文旅资源居全省前列。张掖立足“一屏三地”功能定位，构建特色现代化产业体系，加快形成综合能源及装备制造、农畜产品精深加工、新材料、文旅康养等产业新格局。

重点产业招商方向

01 综合能源及装备制造产业

重点招引氢基化工、储能装备制造及高端电气装备制造等项目。

02 农畜产品精深加工产业

围绕玉米制种、绿色蔬菜、畜牧养殖等优势产业，聚焦产业链中端环节，重点招引产品研发、精深加工、销售贸易、智慧畜牧等项目。

03 文旅康养产业

重点招引文旅体验升级、新兴业态培育、自驾游配套、住宿体系优化、文创产业赋能等项目。

重点推介项目

01. 年产 5 万吨锂离子电池硅碳负极材料生产项目

属于新材料产业，总投资 55 亿元。拟引进企业在张掖经开区建设硅碳复合材料合成车间、包覆车间，配套建设流化床反应器沉积设备、高纯度研磨与分级设备、研发检测中心及环保设施。

02. 年产 15 万吨玄武岩纤维项目

属于新材料产业，总投资 12 亿元。拟引进企业在高台县新建生产基地及研发中心，建成玄武岩纤维生产线 30 条，并配套相关附属设施。

03. “茴香羊”产业园智慧化养殖基地建设项目

属于特色农产品及食品加工产业，总投资 3180 万元。拟引进企业在甘州区建设建筑面积 3.2 万平方米的标准化智慧羊舍，构建“羊联网”智能养殖体系，配套镀锌板智能料塔、饲草储存区、粪污处理区、兽医室等功能设施。

联系人：蔺 娜 18293640525

白银市

白银市，素享“铜城”美誉，现辖三县两区，总面积 2.01 万平方公里，常住人口 148.01 万人，兰白经济圈核心、丝绸之路枢纽，2025 年地区生产总值达 789.23 亿元。白银资源能源富集，已发现矿产 45 种，是国家级地质找矿整装勘察区。黄河穿境 258 公里，建成 31 处大中型灌区，有各类优质及地理标志农产品 207 个。水能资源 300 万千瓦，发电装机容量 1247.9 万千瓦。工业底蕴深厚，形成 12 条重点产业链、42 条子链，打造 1 个千亿级、2 个五百亿级、5 个百亿级产业集群。有色金属产业集群跻身国家级，“一区六园”集聚企业超 600 家。

重点产业招商方向

01 有色稀土产业

重点引进有色稀土延链补链项目。

02 循环化工产业

重点引进煤化工、光气化工、零碳植物工场等项目。

03 生物医药产业

重点引进生物医药优质项目，打造具有地方特色的生物医药产业集群。

重点推介项目

01. 白银市高纯稀土金属及特种合金生产线项目

所属有色稀土产业，依托白银市及周边有色金属、稀土资源，为项目提供基础金属原料。

02. 白银市年产 1 万台电力变压器生产基地项目

所属装备制造产业，白银市有色金属产能超 100 万吨，新能源装机突破 700 万千瓦，原料充足、市场广阔。

03. 白银市零碳植物工场建设项目

所属循环化工产业，依托靖煤集团烟气氨法脱硫脱碳副产肥料、余热、水、CO 供给生产。

联系人：雒国瑞 13809303125

庆阳市

庆阳地处我国地理版图几何中心，是关中平原城市群重要节点城市、陕甘宁毗邻地区区域性中心城市，也是全国唯一集四大国家战略工程于一体的地级市。全市辖 1 区 7 县，总面积 2.7 万平方公里，常住人口 212 万，交通便捷，飞机、高铁直达 50 多个城市。2025 年地区生产总值 1235.32 亿元，油煤气、风光电资源富集，是陇东综合能源化工基地核心区，作为“东数西算”枢纽节点，数据中心相关指标居全国八大枢纽前列。全市实施“工业兴市、制造强市”战略，要素保障完备，营商环境优良。

重点产业招商方向

01 数字经济产业

重点引进算力基础设施、人工智能、数据要素等项目，低空经济产业重点引进整机制造、系统集成等项目。

02 综合能源化工产业

重点引进煤矿建设、新能源开发利用、油煤气化工、特种化学品、新材料、氢基能源等项目。

03 装备制造产业

重点引进石油化工、新能源、储能、智能、数据中心、电力、低空经济、现代农机等装备制造。

重点推介项目

01. 庆阳数据中心集群绿色数据中心项目

总投资约为 5 亿元，建设模块化、装配式规模大于 3000 机架，PUE 小于或等于 1.2 的绿色数据中心，平均投资回收期约 9 个月。

02. 庆阳数据中心集群服务器制造产业项目

总投资约 15 亿元，开展 CPU、GPU 等服务器以及配套的内存、存储、主板、散热系统等相关生产，投资回收期约 2-3 年。

03. 年产 6 万吨 PBS/PBAT/PBT 联合生产项目

总投资 25 亿元，采用直接酯化 - 缩聚工艺，建设年产 PBS 2 万吨、PBAT 2 万吨、PBT 2 万吨联合生产装置，预计实现年产值约 20 亿元。

联系人：郭馨泽 18215463999

定西市

定西市，是兰西城市群、关中天水经济区的重要辐射区和中国西部交通的重要交汇点，面积 1.96 万平方公里。2025 年 GDP 总值 793.9 亿元。定西中药材、马铃薯产业全国领先，马铃薯种植面积稳定在 300 万亩、产量 500 万吨，种薯生产能力占全国一半。中药材全产业链优势突出，年产各类中药材种植面积达 237 万亩、总产量 50 万吨，产值 553 亿元。风、光、水能资源可开发量 1500 万千瓦，已探明矿产资源有 50 多种，漳县岩盐储量 3.5 亿吨，岷县寨上金矿探明黄金储量 100 吨以上。紧邻兰州，“八通十六达”的交通区位优势突出。营商环境优良，是投资兴业优选之地。

重点产业招商方向

01 中医药产业

重点引进投资中药材种植及制药设备研发制造、中药材配方颗粒生产、中成药及大健康产品生产、中药材有效成分萃取提炼，中药材原药切片、中医康养等方面项目。

02 马铃薯产业

重点引进投资马铃薯淀粉提取、变形淀粉生产、宽粉加工以及马铃薯即时食品加工等方面项目。

03 草牧业

重点引进畜草种植、加工，肉制品、乳制品开发生产等方面项目。

重点推介项目

01. 定西市安定区马铃薯全产业链项目

所属于文化旅游产业，投资额 10 亿元，项目建成后预计年销售收入 10 亿元，利润约 3 亿元。

02. 陇西县中医药大健康产业园一期（核心区）项目

所属于文化旅游产业，投资额 8.5 亿元，项目建成后预计年营业收入超 2 亿元。

03. 定西高新区钢塑复合钢管研发生产基地项目

所属于装备制造产业，投资额 2 亿元，项目建成后年营业收入超 1.5 亿元。

联系人：何 健 18009322566

陇南市

陇南市位于甘肃省东南部，是连接西北、西南的重要通道，是甘肃唯一全境属于长江流域的地区，素有“陇上江南”美誉。人文底蕴深厚，是人文始祖伏羲诞生地、先秦文化发祥地、诸葛亮“六出祁山”征战地，也是红军长征途经地域最广的地区之一。自然生态优良，森林覆盖率 45.27%，是长江上游重要水源涵养区，拥有 25 个 4A 级以上景区及大熊猫、金丝猴等珍稀物种。资源禀赋优越，被著名地质学家李四光称为“宝贝的复杂地带”，已探明金属和非金属矿产 34 种，铅、锌、金等矿产储量居全国前十，盛产纹党、当归等 400 余种中药材，被誉为“天然药库”，花椒、油橄榄产量全国第一，核桃产量全国第二，是西部极具发展潜力的投资兴业热土。

重点产业招商方向

01 特色农业产业

重点招引特色种植繁育、农产品精深加工、现代中药制造、大健康产品生产等高附加值项目。

02 工业制造产业

重点招引光伏组件、储能设备、陶瓷新材料、有色金属采选冶、白酒酿造等项目。

03 文旅康养产业

重点招引大景区开发、实景演绎、研学旅行、农旅融合、大型康养综合体等项目。

重点推介项目

01. 宕昌县铈产业链建设项目

投资：10 亿元

要素保障：已完成项目选址

效益预测：预计年营收 3-8 亿元。

02. 礼县祁山三国文化产业园项目（二期、三期）

投资：10 亿元

要素保障：该项目一期已于 2024 年 10 月建成

效益预测：项目建成后年可接待游客 35 万人次，年营业收入可达 15000 万元，年利润 6000 万元。

03. 文县余家湾至凡昌高速公路建设项目

投资：128 亿元

要素保障：建设用地预审与选址意见书已取得批复，项目水电路网均能有效保障。

效益预测：预计项目投入运营后，30 年运营期收费总收入约 248 亿元，平均年收入 8.3 亿元。

甘南藏族自治州

甘南州地处甘青川三省交界，是黄河上游重要生态屏障和丝绸之路南路唐蕃古道重要节点，素有“生态大屏障、民族大观园、人文大招牌、旅游大宝藏”美誉。全州绿色植被覆盖率超 94%，拥有尕海湖、玛曲草原、扎尔那等世界级生态资源，拉卜楞寺、腊子口战役遗址等人文红色资源绘就了壮美的生态画卷与厚重的历史底色。区位优势明显，“坐中连三、承东启西”，夏河机场通航、高铁高速加快建设，“三纵三横”立体交通格局基本形成。先后获评中国最具民族特色旅游目的地、全国自驾游首选地。文旅产业契合发展趋势，年接待游客超 3000 万人次。

重点产业招商方向

文旅产业全链条开发，重点引入文旅项目开发、运营管理、设施建设类优质企业，推动文旅产业规模化、品质化发展。

重点推介项目

01. 临潭县冶力关旅游区观光缆车和无轨道观光小火车建设项目

拟建设缆车、观光电梯、帐篷营地及其它配套游览设施。

02. 卓尼县大峪沟景区恰布川休闲旅游开发项目

拟建设高端综合自驾游营地、游客接待中心、旅游产品展示中心、特色苦子房民宿及其它配套设施。

03. 迭部县措美峰景区开发项目

拟建游客服务中心、景区连接道路、生态停车场、游步道等基础设施和服务设施，并委托运营。

联系人：唐卓玛 15109420214

临夏回族自治州

临夏古称枹罕，面积 8169 平方公里，辖 1 市 7 县，户籍人口 250.1 万，42 个民族交融共生。马家窑，齐家文化遗址众多，有 11 项国家级非遗，享有“中国彩陶之乡”等美誉。临夏拥有“花儿”，炳灵寺石窟，临夏世界地质公园三张世界级名片及和政古动物化石群。400 公里旅游公路串联 143 处景点，是“避暑天堂，康养胜地”。青壮年占比高，职业教育发达，能为相关产业提供人力支撑。当前，全州紧扣“五个地”功能定位，推动经济高质量发展。2026 年 1 月 1 日至 2030 年 12 月 31 日，对在临夏州投资新设且属 14 类《重点鼓励发展产业目录》的企业，自取得首笔经营收入起，第一至三年免征企业所得税地方分享部分 (40%)，第四至五年减半征收。

重点产业招商方向

01 牛羊全产业

重点引进规模化养殖、精深加工、副产品开发、皮革加工、品牌营销及供应链体系构建项目。

02 文旅康养产业

重点引进生态旅游、文化体验、康养度假、民宿集群及景区综合开发项目。

03 食品加工产业

重点引进清真食品、预制菜、民族特需用品生产加工项目。

重点推介项目

01. 永靖县陆基循环经济鱼菜共生立体农业产业园项目

所属特色种植产业，投资额 11 亿元。规划用地约 1100 亩，分三期主要建设农业智慧循环经济大棚 240 座，生产区、农业旅游体验区和蔬菜加工、冷库、后勤物流区，仓储物流区、育苗大棚以及园区道路等配套设施。

02. 广河县皮革制品生产项目

所属牛羊全产业，投资额 2 亿元。利用广河县经济开发区标准化厂房车间优势及充足的劳动力，建设一条生产箱包、皮鞋、皮具、沙发等皮革下游产品生产线。

03. 积石山县花椒深加工项目

所属食品加工产业，投资额 2 亿元，项目总占地面积 46 亩，建筑面积 2.8 万平方米，新建科研楼、检验检测中心、保鲜库、贮藏库，花椒深加工车间等基础设施项目，引进花椒籽油、花椒醋、花椒调料等生产线。

联系人：董旭荷 13993037021

兰州新区

兰州新区是国务院批复的全国第五个、西北第一个、胡焕庸线以西唯一的国家级新区，肩负“西北地区重要的经济增长极、国家重要的产业基地、向西开放的重要战略平台、承接产业转移示范区”战略使命，是甘肃对外开放重要窗口。地处兰西银共生带核心，辐射西北、联通亚欧，区位优势明显。土地能源充足，科教资源富集，拥有 19 所院校、16.5 万师生。各类创新平台 193 个，高新技术企业 184 家，研发投入强度 3.8%。高铁、机场、高速构筑立体交通。拥有综保区、航空港、铁路口岸等开放平台，与 80 多个国家开展贸易。产业生态完善、服务保障有力，多次获评“最具投资吸引力新区”。

重点产业招商方向

01 新材料产业

以新能源电池产业为突破点，以兰州新区现有工业硅、铜、铝及贵金属加工产业为基础，着力培育新能源材料、常用金属材料、贵金属材料、前沿新材料和新型建材五大产业链。

02 现代化工产业

重点发展石油化工、精细化工、化工新材料、电子化学品、光气等产业板块及上下游一体化配套产业，深化基础化工、医药原料及中间体、农药原料及中间体、化工新材料、循环化工五大产业板块。

重点推介项目

01. 年产 5 亿平方米高性能锂离子电池湿法隔膜及涂覆一体化项目

项目用地约 200 亩，计划建设年产 5 亿平方米高性能锂离子电池隔膜，主要建设湿法隔膜基膜生产车间、隔膜涂覆加工车间、分切及检测车间、辅助生产设施、研发与质量中心等配套设施。

02. 年产 5 万吨己二腈项目

项目占地面积 180 亩，主要建设内容年产 5 万吨己二腈主生产线，配套建设氢氰酸制备装置、副产物回收系统（年产甲基戊二腈 1200 吨、2-甲基戊二胺 1000 吨、3-甲基吡啶 4926 吨、硫酸铵 21800 吨），以及原料预处理、分离提纯、研发中心等辅助设施。

03. 年产 5000 万套新能源电池精密结构件（铝壳）智能制造项目

项目用地约 180 亩，计划建设年产 5000 万套新能源电池精密结构件（铝壳）智能制造项目，主要建设铝壳拉伸成型车间、精密机加与清洗车间、顶盖组件生产车间、表面处理车间、技术研发与质检中心及配套设施。

CHINA LANZHOU INVESTMENT AND TRADE FAIR

The China Lanzhou Investment and Trade Fair (CLZITF) serves as a vital gateway for China's opening up to the west, a key bridge for fostering cooperation among eastern, central, and western regions, and an important platform for international economic and trade exchanges. Since 1993, the CLZITF has been held annually. To date, the event has successfully hosted 31 sessions, playing a crucial role in Gansu's deep integration into the Belt and Road Initiative (BRI), strengthening regional economic and trade ties, and driving high-quality economic development.

Over the years, the CLZITF has been committed to the principles of "Opening-up, Exploration, Cooperation and Development," maintaining close ties with neighboring provinces and international partners, and continuously advancing healthy regional cooperation. Its "circle of friends" in economic, trade, and investment fields has grown steadily. Countries such as Belarus, Hungary, the United Arab Emirates, Saudi Arabia, Thailand, and Indonesia have been invited as guests of honor, significantly elevating the level of international cooperation. Focusing on Gansu's key industrial chains, special investment promotion activities have been held. By jointly organizing industrial project matchmaking with key national business associations and trade promotion agencies, and deepening cooperation between central and local governments as well as between local governments and enterprises, project investment amounts have repeatedly hit new highs, and the effectiveness of investment attraction has continuously strengthened. Five major exhibition areas, namely Silk Road International Cooperation, Regional Cooperation and Exchange, Characteristic and Competitive Industries, Fashion Consumer Goods and Premium Foreign Trade Products, and Authentic "Ganwei" Products, have been set up, further highlighting regional characteristics and advantages.

At this new starting point, the CPC Gansu Provincial Committee and the People's Government of Gansu Province will fully implement the guiding principles of the 20th CPC National Congress and previous plenary sessions, carry out President Xi Jinping's important instructions from his Gansu inspection tour, comprehensively apply the new development philosophy, accelerate the creation of a new development landscape, focus on building an open and robust province, deepen engagement in the high-quality development of the BRI and the New International Land-Sea Trade Corridor, and strive to enhance Gansu's strategic role in China's westward opening. All-round openness will be leveraged as an effective driver for development.

PREVIOUS SESSIONS

2025
The 31st CLZITF

Under the theme "Share Opportunities, Seek Common Development, and Foster Prosperity Together," the 31st CLZITF deeply implemented the philosophy of holding a green, cost-effective, safe, and efficient event. Fully integrating itself into the overall layout of high-quality Belt and Road cooperation, it invited Indonesia as the Guest Country of Honor. Four major exhibition areas, including Silk Road International Cooperation and Regional Cooperation and Exchange, were meticulously arranged. Government agencies, business associations, and international organizations from 50 countries (regions) worldwide, as well as over 4,000 enterprises from 28 provinces (autonomous regions and municipalities) and three key cities across China, and Hong Kong, Macao, and Taiwan regions, were invited to participate, alongside over 40,000 guests. During the session, Gansu's functional positioning as an ecological barrier, energy base, strategic corridor, and opening-up hub was highlighted, with a series of high-level economic and trade activities and exhibitions organized. These included the Symposium on the Integrated Development of Gansu Province and Central State-Owned Enterprises, Investment Promotion Conference for the New Energy and New Energy Equipment Manufacturing Industries, and Trips to Gansu by Renowned Entrepreneurs from the Yangtze River Delta Region and Fujian Province. Together, these efforts comprehensively promoted the precise alignment of Gansu's advantageous resources with enterprises' demand. Over 1,000 contract projects were signed, with contract value rising by 7.64% compared to the previous event. This has significantly contributed to optimizing the province's industrial structure and added fresh momentum to Gansu's high-quality economic and social development.

Number of participating enterprises in total

4000⁺

Number of contracts signed in total

2026

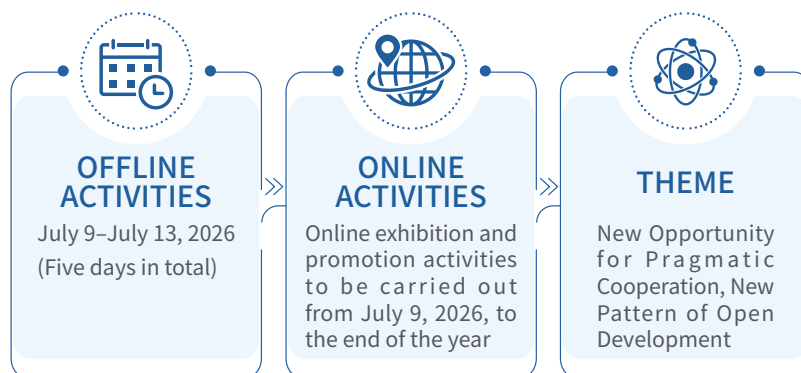

The 32nd CLZITF

Under the theme "New Opportunity for Pragmatic Cooperation, New Pattern of Open Development," this year's event aims to deeply integrate into the development of the Belt and Road Initiative and the New International Land-Sea Trade Corridor. Positioned as a comprehensive platform for open cooperation, it will focus on precisely connecting resources and integrating industries. We will strive for higher quality opening to the west, upgrade coordinated cooperation between the eastern, central, and western regions, maximize the impact of investment promotion, and elevate the level of economic and trade collaboration. These efforts aim to accelerate the creation of a vibrant, open Gansu and drive high-quality economic and social development in the province.

Guest Invitation

Attendees to be invited include representatives of national and regional governments involved in the Belt and Road Initiative and relevant international organizations, embassies and consulates in China, international sister cities of Gansu Province, government agencies of sister provinces, autonomous regions, and municipalities in China, as well as those from China's Hong Kong, Macao, and Taiwan regions, business associations and overseas Chinese communities at home and abroad, central state-owned enterprises, Fortune Global 500 Enterprises, China's Top 500 Enterprises, China's Top 500 Private Enterprises, multinationals, industry-leading companies, key listed companies, and specialized and sophisticated enterprises that produce new and unique products.

MAIN ACTIVITIES

(I) The Opening Ceremony

The section plans to invite CPC and state leaders, ministerial-level officials from the Guest Countries of Honor, leading government officials from Gansu Province, and representatives from central state-owned and private enterprises to deliver speeches.

(II) International Investment Cooperation Activities

1. "Green China · Investment in Gansu" Foreign Investment Conference

Centering on the "dual carbon" goals, the activity will invite multinationals and international representatives to attend, aiming to introduce Gansu's investment environment and policies, facilitate project matchmaking in fields like new energy and advanced manufacturing, and drive the settlement of foreign investment as well as its integration into green industrial chains.

2. China (Gansu) - RCEP Featured Agricultural Products Trade Cooperation Matchmaking Meeting

Leveraging trade cooperation in specialty agricultural products, it aims to deepen economic and trade ties between Gansu and RCEP member countries. In addition, the RCEP Gansu Specialty Agricultural Products Industry Cooperation Council will be established to forge a Gansu mode for RCEP cooperation.

3. Dialogue (Yellow River) on International Commercial Legal Services Cooperation under Belt and Road Initiative & Central Asia Economic and Trade Investment and Cross-border Dispute Resolution

Representatives from Central Asia and neighboring countries will be invited to discuss various topics, such as the business environment, investment risks, and dispute resolution, aiming to foster legal cooperation and the signing of agreements.

4. "Gansu Tour for Enterprises from Hong Kong, Macao, and Taiwan" – Industrial Cooperation and Inspection Activity

Well-known business representatives from Hong Kong, Macao, and Taiwan regions will be invited to participate in targeted investment promotion and negotiations along specific industrial chains. These representatives will visit relevant cities and prefectures for on-site inspections, thereby deepening economic and trade cooperation between Gansu and the three regions.

(III) Regional Investment Cooperation Activities

1. Symposium on the Integrated Development of Gansu Province and Central State-Owned Enterprises

Central state-owned enterprises interested in investing in Gansu will be invited to engage in matchmaking and negotiations centered on featured and emerging industries, promoting complementary advantages and integrated development between central and local entities.

2. Project Investment Matchmaking Event of the China Petroleum and Chemical Industry Federation

Representatives from domestic and international industry leaders and key member enterprises will be invited for thematic promotion and matchmaking. Leveraging the province's resource advantages in petrochemicals and chemicals alongside the demand for industrial transfer, the activity aims to drive the green transformation and high-quality development of local industries.

3. Development Conference on Collaboration Between China's Eastern and Western Regions & Industry Relocation

Representatives from national industry associations, key enterprises from the eastern and central regions, investment and financing institutions, local companies and industrial parks will be invited to focus on industrial chain matchmaking in petrochemicals, nonferrous metallurgy, equipment manufacturing, and other key sectors, with the aim of promoting industrial collaboration and fostering the development of industry clusters.

4. Trip to Gansu by Renowned Entrepreneurs from the Yangtze River Delta Region - Investment Promotion Matchmaking Event

Entrepreneurs from the Yangtze River Delta region will be invited for promotions and negotiations on key industries like advanced manufacturing, new energy, and the digital economy, and group visits to relevant cities (autonomous prefectures) will be organized for inspections and matchmaking to boost industrial cooperation.

5. Trip to Gansu by Entrepreneurs from Shandong - Investment Promotion Matchmaking Event

Domestic and overseas representatives of enterprises from Shandong will be invited for matchmaking in fields such as high-end manufacturing, smart agriculture, and new energy equipment, and visits to relevant cities (autonomous prefectures) will be organized to integrate the strengths of Shandong enterprises with Gansu's advantageous resources.

6. Trip to Gansu by Entrepreneurs from Shaanxi - Investment Promotion Matchmaking Event

Domestic and overseas representatives of enterprises from Shaanxi will be invited to engage in matchmaking focused on dryland farming, new energy equipment, biomedicine, and cultural tourism. Inspection tours to relevant cities (autonomous prefectures) will also be organized to promote industrial chain collaboration and the integration of culture and tourism.

7. Technology Investment Promotion and Achievement Commercialization Exchange and Matchmaking Conference

With a focus on building a regional science and technology innovation transformation base, academicians, experts, and representatives from tech companies, universities, and financial institutions will be invited to attend activities such as achievement releases and matchmaking signings, accelerating the local conversion of scientific and technological achievements in Gansu.

8. 2026 Gansu Province Mining Rights Transfer Project Investment Promotion Conference

Mining enterprises from within and outside the province will be invited to connect with high-quality mineral resources and mining rights proposed for transfer. Investment promotion policies will be publicized and signing ceremonies will be held to boost the strategic actions to explore mineral resources.

9. "Uniting Gansu Entrepreneurs for a Win-Win Future" Investment Cooperation Symposium

Representatives from Gansu chambers of commerce nationwide, non-local chambers of commerce in Gansu, and Gansu's external business representative offices will be invited to focus on industrial opportunities and investment opportunities in Gansu. Through exchanges, inspections, and project matchmaking, it aims to assist in shaping a new pattern of investment attraction across the province.

10. "Night of the Yellow River · Glory of E-commerce" Gansu E-commerce High-Quality Development Talks

Top e-commerce influencers and provincial e-commerce representatives will be invited to focus on revitalizing agriculture through e-commerce and talent cultivation, showcasing Gansu's e-commerce achievements, and building a new e-commerce ecosystem centered on the digital economy, platform construction, and industrial development.

11. "Gathering Wisdom in Lanzhou: Integrating Industry and Research" Lanzhou University Alumni Cooperation and Exchange Event

Distinguished alumni of Lanzhou University from around the globe will be invited to gather in Lanzhou. Focusing on investment promotion and talent introduction, as well as university-local government and university-enterprise cooperation, activities such as policy promotion, industry-academia matchmaking, and development advisory will be held. This aims to build a multi-party resource-sharing and matchmaking university-enterprise platform, build consensus among alumni to start businesses in Gansu, promote the deep integration of industry, academia, research, investment, and finance, and boost Gansu's industrial development.

(IV) Economic and Trade Exchange Event of the Guest Countries of Honor and the Theme Cities

Opening Ceremony of the Guest Countries of Honor's National Pavilion and relevant meetings.

Focusing on their distinctive advantageous industries, the Theme Cities will host dedicated investment matchmaking events, such as "2026 Lanzhou High-quality Development Investment Promotion and Matchmaking Conference." The Trip to Gansu series of events will also be held, inviting entrepreneurs from the Yangtze River Delta region, Shandong, and Shaanxi to conduct inspections, negotiations, and economic and trade matchmaking activities in the province.

(V) Exhibition and Display Event

1. Exhibition Area for Silk Road International Cooperation

National and regional governments involved in the Belt and Road Initiative and international organizations are invited to the exhibition, showcasing national and regional images, cooperation fields, and major projects to promote investment negotiations and bulk commodity trade.

2. Exhibition Area for Regional Cooperation and Exchange

Governments from various provinces (autonomous regions and municipalities) in China will be invited as delegations to showcase local investment environments, key industries, investment projects, and specialty products, fostering discussions on economic and trade cooperation.

3. Exhibition Area for Characteristic and Competitive Industries

A total of 16 exhibition halls will be set up, including 14 city (autonomous prefecture) industry halls, one Longjiu (Gansu liquor) tasting hall, and one Gansu ethnic characteristics hall. These will centrally showcase the investment attraction achievements of the "14th Five-Year Plan" and promote the province's distinctive and advantageous industries.

4. Exhibition Area for Fashion Consumer Goods and Premium Foreign Trade Products

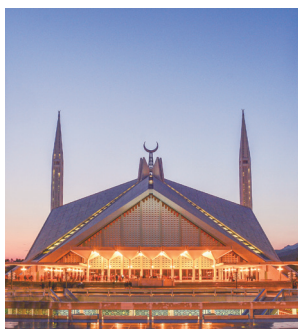

An exhibition area is situated in the South Plaza to present exhibitions and markets of imported merchandise and esteemed, premium specialty products from Gansu and other Chinese provinces.

5. Exhibition Area for Authentic "Ganwei" Products

A special booth exhibition area is set up in the South Square for carrying out roadshows, tasting, sales, and other activities in parallel.

GUEST COUNTRIES OF HONOR

PAKISTAN

Pakistan is located in the northwestern part of the South Asian subcontinent. It borders India to the east, China to the northeast, Afghanistan to the northwest, and Iran to the west, with the Arabian Sea to the south, boasting a coastline of 980 kilometers. The country consists of four provinces: Punjab, Khyber Pakhtunkhwa, Balochistan, and Sindh, as well as the Islamabad Capital Territory. The provinces are subdivided into special districts, counties, townships, and village associations.

The country has a population of 240 million (as of December 2025). It is a multi-ethnic country, with Punjabis accounting for 63%, Sindhis 18%, Pashtuns 11%, and Balochis 4%. Its national language is Urdu, while both Urdu and English are official languages. Major regional languages include Punjabi, Sindhi, Pashto, and Balochi. Over 95% of the population practices Islam (the state religion), while a small minority follows Christianity, Hinduism, Sikhism, and other faiths.

Pakistan's economy is agriculture-based, with agricultural output value accounting for 24.03% of its Gross Domestic Product (GDP). For the 2024–2025 fiscal year, Pakistan's GDP stood at USD 411 billion, representing a year-on-year increase of 2.68%, with a per capita GDP of USD 1,824.

REPUBLIC OF KOREA

The Republic of Korea (ROK) is an East Asian country with Seoul as its capital. It is a peninsular country located in the northeastern part of the Asian continent, the southern half of the Korean Peninsula. Covering a land area of 100,460 square kilometers, the country has a predominantly mountainous terrain, surrounded by the sea on the east, south, and west, with plains distributed mainly in the western and southern regions. The country is divided into one special city, four special autonomous cities (-do), six provinces (-do), and six metropolitan cities.

The ROK has a population of approximately 51.15 million (as of September 2025). It is an ethnically homogeneous country where the Korean language is widely spoken. Approximately 50% of the population follows religions such as Buddhism, Protestantism, and Catholicism. As the world's 13th largest economy, the ROK is a member of the Group of Twenty and the Organisation for Economic Co-operation and Development (OECD), and also one of the founding members of the World Trade Organization (WTO). Since the 1960s, it has experienced rapid economic growth, creating a model of economic development known as the "Miracle on the Han River." It boasts developed manufacturing and service sectors, with output in shipbuilding, automobiles, and electronics ranking among the world's top.

The country is a key member of various mechanisms, such as the Asia-Pacific Economic Cooperation (APEC) and the ASEAN Plus China, Japan, and the ROK, and also a member state of the United Nations (UN). In 2024, its GDP reached approximately USD 1.87 trillion, with a per capita GDP of USD 36,000 and total foreign trade volume of approximately USD 1.32 trillion. It maintains economic and trade relations with over 180 countries and regions, with China being its largest trading partner.

THEME CITIES

LANZHOU CITY

Lanzhou, the capital of Gansu Province, is located at the geometric center of China's land area. It serves as an important central city in China's western region, a national comprehensive transportation hub, an advanced manufacturing base in northwestern China, and a regional influential hub for technological innovation. The city administers five districts (Chengguan, Qilihe, Xigu, Anning, and Honggu) and three counties (Yongdeng, Yuzhong, and Gaolan). It is home to a national-level new area (Lanzhou New Area) and two national-level development zones (Lanzhou National Hi-tech Industrial Development Zone and Lanzhou Economic and Technological Development Zone). The total area of the city is 13,100 square kilometers.

As a pivotal transportation hub connecting the six major regions and strategically positioned at the crossroads of northwestern China, Lanzhou is recognized as a key logistics center, among the nine major logistics regions, 10 major logistics channels, and 21 national logistics node cities. It also serves as a vital strategic gateway on the New Eurasian Land Bridge, linking China to Central Asia, West Asia, and South Asia. As an important national research and education base, Lanzhou is home to 139 research institutes known as the "New Fourth Army" in the scientific research field, which include Lanzhou University, the Lanzhou Branch of the Chinese Academy of Sciences, military industrial enterprises based in Lanzhou, and central SOEs stationed in the city. There are 1,228 research institutes and 31 colleges and universities. Additionally, the city boasts one national laboratory represented by the heavy ion accelerator, 10 national-level enterprise technology centers, and three national-level engineering technology research centers, with 43 academicians from the Chinese Academy of Sciences and the Chinese Academy of Engineering. The city is continuously unleashing innovative and creative vitality.

Investment Promotion Direction of Key Industries

01 Accelerate the Cultivation of Urban Economy

Fully leveraging the leading role of the metropolitan economy in the regional economy, and accelerating the construction of a metropolitan modern industrial system characterized by distinct advantages, prominent leading industries, and significant driving capacity.

02. Continuously Expand County Economy

Enhancing, expanding, and optimizing the county-level economy through industrial development, and accelerating the realization of the goal to strengthen county-level development.

03. Upgrade and Improve Development Zone Economy

Concentrating resource elements to focus on industries, projects, and development; cultivate and expand advantageous industrial clusters; and build a primary front for economic development.

04. Vigorously Develop Private Economy

Strictly implementing the Private Sector Promotion Law of the People's Republic of China and apply greater effort to promote the healthy and high-quality development of the private sector.

05. Optimize and Strengthen Digital Economy

Focusing on the coordinated development of digital industrialization, industry digitization, data-based value creation, and intelligent governance, to continuously enhance the comprehensive competitiveness of the digital economy.

06. Diversify and Expand Open Economy

Cultivating foreign trade entities and supporting the comprehensive bonded zones to strengthen diversified "Bonded+" business formats such as bonded processing, logistics, and R&D. Accelerating the port-industry-city integrated development of the international land port, building a hub economy system, and creating a national pivotal land port for the westward opening-up and a pilot zone for a new type of hub economy.

Key Projects for Promotion

01. Yongdeng County Titanium-Lithium High-Energy Power Battery Production Project

Industry: New Energy

Details: Construction of three automated production lines for high-energy power batteries with a total annual output of 3 GWh, conducting battery cell assembly

Cooperation Mode: Sole proprietorship/joint venture/cooperation

Benefits: The estimated annual output value is RMB 1.83 billion, with a profit margin of 24%.

02. Lanzhou Commercial Aerospace Industry Project

Industry: Equipment manufacturing

Details: Relying on the Lanzhou Institute of Physics, CAST to introduce supporting enterprises, the project aims to build a complete industrial chain covering "core supporting facilities - terminal manufacturing - data application - aerospace culture and tourism."

Cooperation Mode: Sole proprietorship/joint venture/cooperation

Benefits: Drive upstream and downstream industrial agglomeration and establish the "Aerospace Lanzhou" brand.

03. Lanzhou International Land Port Cold Chain Logistics and Food Processing Project

Industry: Trade and Logistics

Content: Covering an area of 18.07 hectares (271 mu), the project involves the construction of a multi-temperature commodity storage and processing zone, a smart e-commerce distribution center, and a processing and exhibition area. It aims to create a comprehensive smart cold chain logistics hub specializing in fresh produce, imported food, pharmaceuticals, and biological products.

Cooperation Mode: Sole proprietorship/joint venture/cooperation

Benefits: To establish a key hub for smart cold chain logistics and food processing in the Northwest region.

Contact Person: Zeng Junwei 17693137899

WUWEI CITY

Located in central Gansu Province at the eastern end of the Hexi Corridor, Wuwei City is the excavation site of the Bronze Galloping Horse Treading on a Flying Swallow (the symbol of Chinese tourism). Wuwei City stands as a national historical and cultural city, an outstanding tourism destination in China, and the Chinese Wine City. It has long been known as the metropolitan of the Five Liang dynasties and the key city of the Hexi region, being a land of profound culture, a treasure land of abundant resources, an important ecological area, and a highland of spirit. The city currently administers Liangzhou District, Minqin County, Gulang County, and Tianzhu Tibetan Autonomous County. This time-honored city boasts a profound cultural heritage. In 121 BC, Emperor Wu of the Han Dynasty dispatched General Huo Qubing on an expedition to the Hexi region, where he defeated the nomadic Xiongnu raiders. The name "Wuwei" (literally meaning "martial power and military might") was bestowed to commemorate his military achievements. It is home to such precious historical and cultural relics as the Bronze Galloping Horse (the symbol of China's tourism), Liangzhou White Pagoda Temple (the historical witness to Xizang being under the administrative jurisdiction of the central government), and the Tiantishan Grottoes, known as the "ancestor of grottoes." Wuwei also enjoys a superior geographical location. Located at the strategic throat of the Eurasian Land Bridge, the city is traversed by the Lanzhou-Xinjiang Railway and the Lianyungang-Khorgos Expressway. The Lanzhou-Wuwei High-Speed Railway is in operation, providing one-hour access to Zhongchuan International Airport. As an international logistics hub city for westward opening-up, it serves the whole province and even northwest China, connecting European and other Asian countries. Wuwei has distinctive industries. Blessed with exceptional agricultural resources, Wuwei ranks first in Gansu Province in the stock of dairy cows, sheep, and pigs, as well as the output of vegetables, edible mushrooms, and quinoa. It is renowned as the hometown of edible mushrooms, dehydrated vegetables, mutton sheep, honey melons, pepino, and fennel. For 12 consecutive years, the city's added value of agriculture has ranked first in the province. Moreover, its ecological industry is enjoying strong momentum. The featured agricultural product processing industrial cluster has been selected as a provincial-level advanced manufacturing cluster. The city plans an exploitable capacity of over 120 million kW for wind and photovoltaic power generation, with the installed capacity under construction and in operation reaching 23.8 million kW, ranking second in Gansu Province. Home to the first domestically developed heavy ion tumor therapy system with independent intellectual property rights, the city has an advantageous medical and wellness industry. In 2025, the city's GDP reached RMB 80.23 billion. The added value of the primary, secondary, and tertiary industries amounted to RMB 25.91 billion, RMB 16.27 billion, and RMB 38.04 billion, respectively. The total retail sales of consumer goods reached RMB 16.26 billion. The per capita disposable income of urban and rural residents reached RMB 41,856 and RMB 19,730, respectively.

Investment Promotion Direction of Key Industries

01 New Energy Industry

Wuwei boasts a planned developable capacity of over 120 million kilowatts for wind and solar power. Leveraging its existing operational and under-construction installed capacity, the city is prioritizing the development of wind and solar power bases, new energy equipment manufacturing, and new materials projects. The investment potential for the new energy industry is immense.

02 Food Industry

Ranking first in the province for livestock inventory and agricultural output, Wuwei is actively introducing dairy industry clusters, building comprehensive edible fungi production bases, and developing full supply chain projects for "Geographical Indication (GI) Mutton". The prospects for developing distinctive agricultural and pastoral industries are highly promising.

03 Cultural and Tourism Industry

Recognized as a "Beautiful China: Best Destination for Holistic Tourism and Leisure", Wuwei is committed to establishing culture and tourism as a pillar industry. Key initiatives include introducing cultural and tourism complexes, expanding the airport, and developing the cultural tourism of Tiantishan Grottoes. The potential for growth in this sector is limitless.

Key Projects for Promotion

01. Milk Industry Cluster Valuing RMB 10 Billion Project in Wuwei City, a Premium Milk Source Base of Hexi Corridor

As a part of the dairy industry, the project boasts an investment of RMB 3.6 billion. Proposed projects include the construction of a forage planting base, an ecological dairy farming industrial park, and a dairy product intensive processing facility.

02. Source-Grid-Load-Storage Integration Demonstration Project

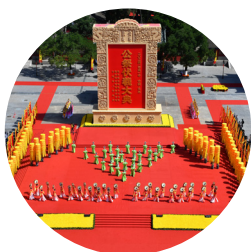

As a part of the new energy and equipment manufacturing industry, the project boasts an investment of RMB 6.9 billion. The project plans to construct 300 MW of wind power and 200 MW of PV capacity, accompanied by a 120 MW facility that offers an energy storage duration of 2 hours.

03. 600,000-Ton Calcium Carbide Production Line Project

As a part of the fine chemical industry, the project has an investment of RMB 5.5 billion. Utilizing abundant local limestone resources, it aims to build a 600,000-ton calcium carbide production line to accelerate resource development and utilization in accordance with the circular economy development model.

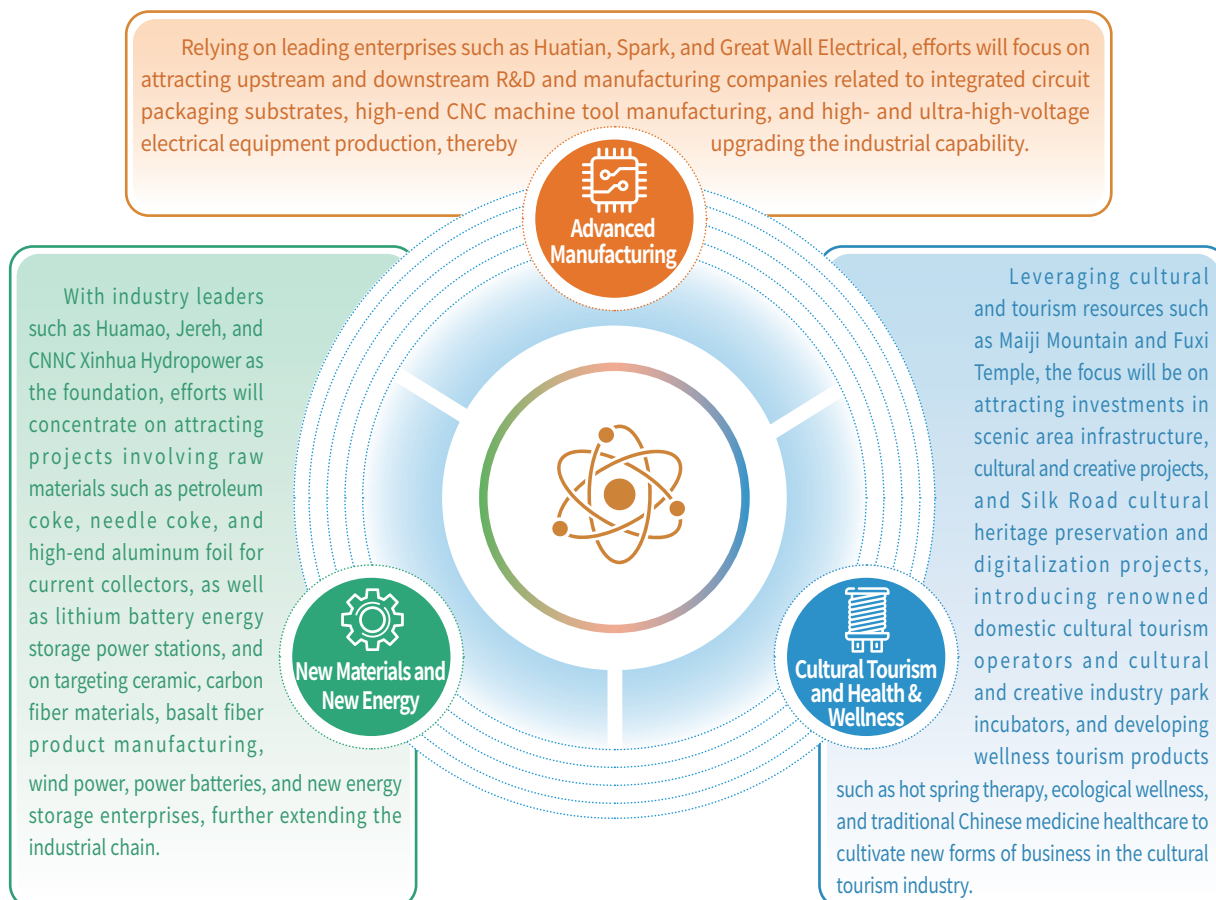

Contact: Liu Aiguo 15109353399

TIANSHUI CITY

Located in southeastern Gansu, Tianshui City is a key node city in the Silk Road Economic Belt and the Guanzhong Plain urban cluster. It has a total area of 14,300 square kilometers and a permanent population of 3,670,000. As one of the first national historical and cultural cities, Tianshui City is known as the "Hometown of Fuxi", thus a sacred destination for ancestry tracing and worship of global Chinese. The millennium-old Maiji Mountain Grottoes, known for the "Oriental Smile," is included in the World Cultural Heritage List by UNESCO. Boasting the internet buzz Tianshui Malatang (literally spicy hot pot), the city makes the lists of "Top 10 Charming Destinations" and "China's Beautiful Rejuvenated Cities". With a mild climate, the region serves as a base for high-quality northern fruits and vegetables and western aerospace breeding, boasting distinctive "Ganwei" agricultural products, such as large and red Huanieu apples, Qin'an peaches, Qinzhou cherries, and Gangu chili peppers. As a well-established industrial base, it is a key member of the national advanced manufacturing Baoji-Hanzhong-Tianshui industrial machine tool cluster, forming an industrial pattern supported by integrated circuits (IC), electrical appliances, and machine manufacturing. HT-Tech, a group with Tianshui origin, is a leading enterprise in IC packaging and testing, ranked sixth globally, while Tianshui Spark Machine Tool is a chain-owner enterprise in the national key industrial machine tool industry chain. Currently, Tianshui is focusing on the development positioning of "Three Zones, One Base, and One Center." Driven by new quality productive forces, the city is promoting the transformation and upgrading of traditional industries, accelerating the cultivation of emerging industries, and planning for future industries to speed up the construction of a modern industrial system. Opening its arms, the city invites investors from all sectors to invest and establish businesses here, seeking mutual development.

Investment Promotion Direction of Key Industries

Key Projects for Promotion

01. Guatai Mountain Fuxi Ancestor Cultural Tourism Industrial Park Project

As a part of the cultural tourism and wellness industry chain, the project relies on ancestral cultural tourism resources to build a sacred destination for ancestry tracing and worship dedicated to Fuxi culture, with an investment of RMB 3 billion.

02. Gangu County New Energy Lithium Battery Production and Packaging Construction Project

As a part of the new energy industry chain, the project involves building a base for lithium battery production, accessory processing, and assembly and packaging to extend the Jereh New Energy Technology industry chain, with an investment of RMB 1.2 billion.

03. China · Tianshui Anliang Full-Chain Base Project

As a part of the specialty agricultural products and food industry chain, the project leverages the national dual-use agricultural products digital intelligence distribution center to build processing, storage, and distribution hubs, aiming to create a zero-carbon park with an investment of RMB 3 billion.

Contact Person: Cheng Xiaofang 15309385330

PINGLIANG CITY

Located in eastern Gansu Province at the junction of Shaanxi Province, Gansu Province, and Ningxia Hui Autonomous Region, Pingliang City covers a total area of 11,000 square kilometers with a permanent population of 1.7727 million. The city is striving to build a provincial innovation zone for industrial transformation, a model zone for modern premium agriculture in western China, a pilot zone for the integration of culture, tourism, and wellness in the northwest, and a national advanced city for ecological conservation.

As a city rich in various resources, it has proven coal reserves of 11 billion tons, a production capacity of 29.73 million tons, and a thermal power installed capacity of 6.13 million kW. Proven limestone reserves stand at 3 billion tons, and magnesium-smelting dolomite reserves exceed 700 million tons. It is also a prosperous land for agriculture. The annual stock of Pingliang Red Cattle reaches 1.08 million head, boasting a brand value of RMB 22.3 billion. Jingning apples cover a planting area of 1.51 million mu (10.07 hectares), with an annual output of 2.7 million tons and a brand value of RMB 18.1 billion. Moreover, Pingliang stands as an ecological paradise. It is home to over 100 natural and cultural landscapes, including the National 5A-level Tourist Attraction Kongtong Mountain. With an average annual temperature of 8.5° C and a forest and grass coverage rate of 46.1%, it has been honored as a "Preferred Destination for Summer Tourism in China" and named one of the "Top 10 National Eco-Cultural Tourism Brands for the Great Heat Solar Term". Pingliang is also a prime destination for investment. With convenient transportation and accessible logistics, the city has constructed 640,000 square meters of standardized workshops. The electricity costs no more than RMB 0.45 per kWh, and the industrial water price is RMB 1.5/ton. A total of 7 million tons of industrial steam is available annually. Coupled with abundant human resources, the comprehensive cost advantages are significant.

Investment Promotion Direction of Key Industries

01. Clean and Efficient Coal Utilization Industry Chain

Key focus: Enterprises engaged in downstream methanol products such as formaldehyde, acetic acid, olefins, methanol-to-gasoline, and antifreeze, as well as chain-extending and chain-strengthening enterprises in downstream polypropylene sectors like packaging, automotive, and healthcare. The goal is to promote the transformation of coal resources to prioritize both fuels and raw materials, extending the entire industrial chain towards high-end and refined development.

02. Magnesium-based New Materials Industry Chain

Key focus: The entire chain of magnesium metal resource mining, smelting, processing, and high-end applications. The city aims to build an industrial cluster with coordinated upstream and downstream development.

03. Bio-manufacturing Industry Chain

Key focus: Downstream industrial chains of corn starch and plant extraction. The city aims to introduce enterprises in industries such as bio-fermentation and plant extraction to establish a synthetic biology production base of significance in western China and across the country.

04. Pingliang Red Cattle Industry Chain

Key focus: Manufacturing enterprises engaged in feed processing and intelligent breeding equipment (such as precision feeding systems and manure treatment equipment).

05. Jingning Apple Industry Chain

Key focus: Projects in areas like standardized planting, intensive processing, marketing and sales, cold chain warehousing, and the resource utilization of apple waste.

06. Cultural Tourism and Health & Wellness Industry Chain

Key focus: Upgrading high-end cultural tourism venues, developing forest summer resort formats, extending the traditional Chinese medicine wellness experience product chain, advancing the hot spring wellness industry, upgrading sojourn wellness formats with supporting services, building brands for tourism performing arts and events, cultivating digital cultural creativity and new industrial formats, and fostering the low-altitude economy integrated with cultural tourism development.

Key Projects for Promotion

01. Pingliang Industrial Park Bio-manufacturing Industry Chain Project

Plans are in place to introduce sub-chain projects such as bio-fermentation, biopharmaceuticals, and food and health supplement processing, aiming to build a core industrial chain consisting of corn, corn starch, starch sugar, various fermentation products, and downstream products.

02. Jingning County Automotive Parts Industrial Park Construction Project

The project plans to construct 10 standardized workshops with an estimated land use of 400 mu (26.67 hectares). Relying on leading automotive parts enterprises such as Gansu Huyou Zhengtong Electric System, Hot Stamping Tech, and Jingning Shidai Technology, it aims to introduce various automotive parts manufacturing enterprises.

03. Lingtai County 5 Million Tons/Year Coal Quality-based Grading and Polygeneration Demonstration Project

The plan involves constructing a gas power platform project with an annual output of 4.8 billion Nm³ of syngas (CO+H₂), co-producing 230,000 tons of LNG, a project producing 700,000 tons/year of synthetic ammonia from syngas with co-production of urea and melamine, and a project producing 600,000 tons/year of high-end new materials from syngas.

Contact Person: Li Wei 18719607051

OVERVIEW OF CITIES AND AUTONOMOUS PREFECTURES

JIAYUGUAN CITY

Jiayuguan City is a vital pass on the ancient Silk Road and a key node city under the national Belt and Road Initiative. It is the only prefecture-level city in China named after a Great Wall pass, serving as the western starting point of the Great Wall of the Ming Dynasty. It is also a significant national metallurgical industrial base and a modern industrial tourism eco-city. Anchored by the "Two Zones, One City, One Landmark" positioning, the city implements the strategies of strengthening itself through industry, rejuvenating itself through culture and tourism, and emphasizing ecological conservation as the very foundation on which it is built. Home to world cultural heritage sites like the Jiayuguan Pass, it features a unique landscape combining "Great Wall + Gobi + Glaciers." Boasting a robust industrial foundation, the city is home to backbone enterprises such as JISCO and 404 Company Limited., China National Nuclear Corporation. With distinct advantages in its business environment and transportation, it stands as a premier destination for investment and development in Western China.

Investment Promotion Direction of Key Industries

01 Steel Equipment Manufacturing and New Metal Materials

Key focus: Projects in fields such as intensive processing, high-end specialty steels, precision components, and metal composite materials.

02 Electrolytic Aluminum and Aluminum Products Processing

Key focus: Projects involving high-value-added aluminum foil stock, specialty aluminum materials, multi-metal composites, recycled aluminum, and intensive processing.

03 Nuclear Technology Application and Equipment Manufacturing

Key areas for investment include civil nuclear technology applications, nuclear equipment manufacturing, nuclear-grade material R&D, and nuclear technology services.

Key Projects for Promotion

01. Hongdian Ferroalloy 50,000-ton Magnesium Ingot Production Line Construction Project

The project aims to construct a production line with an annual output of 50,000 tons of magnesium ingots, integrating raw material preparation, calcination and reduction, refining, and environmental dust removal, with an investment of RMB 650 million.

02. Stainless Steel & Titanium Industry Chain Extension Cooperation Project

The project introduces a 30,000-ton titanium billet line using the VAR+EB duplex process to produce 10–20-ton grade high-end titanium materials, with an investment of RMB 400 million.

03. Renovation and Upgrading Project of the First Pier of the Great Wall in Jiayuguan

Leveraging the First Pier of the Great Wall and the canyon landscape, the project creates art exhibitions and leisure spaces, such as the Silk Road Station and Cliff Art Museum, with an investment of RMB 100 million.

Contact Person: Zhang Xuebin 13993772066

JINCHANG CITY

Jinchang City covers a total area of 9,600 square kilometers, with a population of 432,000 and an urbanization rate of 80.54%. In 2025, the regional GDP grew by 9.3%, with per capita GDP reaching RMB 157,000. Known as China's "Capital of Nickel," the city boasts the world's third-largest nickel reserves. Moreover, it ranks second in China for copper and cobalt reserves, leads the country in rare and precious metal reserves, and possesses a wind and solar power development capacity exceeding 15 million kW. The city features a comprehensive industrial system and a full range of manufacturing sectors, with distinct advantages in new energy raw materials and the chemical industry. The Jinchang National Economic and Technological Development Zone is well-equipped with supporting facilities, backed by strong scientific research capabilities and a convenient, multidimensional transportation network. Jinchuan Group Co., Ltd., a provincial enterprise based in Jinchang, ranks 235th in the Fortune Global 500 list, offering outstanding advantages for investment and business development.

Investment Promotion Direction of Key Industries

01 Non-Ferrous New Materials Industry

Key focus: Projects for processing high-value-added products, such as nickel-based superalloys, high-precision electronic copper, supported catalysts, and the deep processing of titanium materials.

02 New Energy and New Energy Battery Industry

Key focus: Projects of battery cells, cathode materials, electrolytes, hydrogen fuel cells, and solid-state/semi-solid-state batteries.

03 Future Industries

Key focus: Future material projects, such as new energy coupling materials and novel superconducting materials, future energy projects like hydrogen energy, and future space projects, including the low-altitude economy.

Key Projects for Promotion

01. Lithium Battery Cathode Material Production Project

With a total investment of RMB 1.5 billion, the project plans to introduce enterprises to build a production line with an annual output of 50,000 tons of lithium iron phosphate or lithium nickel manganese cobalt oxide battery cathode materials.

02. Titanium Deep Processing Project

With a total investment of RMB 1.3 billion, the project plans to introduce enterprises to build production lines for cold-rolled titanium coils, titanium alloys, titanium welded pipes, and titanium structural components.

03. Flame Retardant Production Project

With a total investment of RMB 400 million, the project plans to introduce enterprises to build a production line with an annual output of 30,000 tons of new eco-friendly flame retardants and high-performance eco-friendly halogen-free polyester flame retardants.

Contact Person: Guo Xinze 18215463999

JIUQUAN CITY

Jiuquan (wine spring) derives its name from the saying "Below the city walls there is a golden spring, and the waters taste like wine." Covering a total area of 192,000 square kilometers, it is the birthplace of the Dunhuang Flying Apsaras art, the cradle of modern aerospace, and the birthplace of the petroleum and nuclear industries in China. The city is abundant in green energy resources, with new energy installed capacity surpassing 40 million kilowatts. The entire industry chain for wind, solar, thermal, energy storage, hydrogen, and grid connectivity is quickly taking shape. Vegetable seed production and exports account for 50% of the national total, while flower seed production supplies 70% of the country's demand. A total of 97 types of mineral resources has been identified, with reserves of 15 minerals, including vanadium and chromium, ranking first in Gansu Province. The modern chemical industry has a strong foundation, with diversified development spanning petrochemicals, coal chemicals, fine chemicals, and fluorochemicals. The city is rich in cultural and tourism resources, with world-renowned sites such as the Mogao Caves among its celebrated World Cultural Heritage locations. The development of a land-port-type national logistics hub is accelerating, while emerging industries such as aerospace, nuclear and related fields, digital economy, and biomedicine are being strategically advanced. In 2025, the city's GDP exceeded RMB 110 billion, with per capita GDP surpassing the national average.

Investment Promotion Direction of Key Industries

Key focus: Making breakthroughs in the "Green Electricity+" chain; extending and supplementing six traditional chains (modern agriculture, new energy equipment manufacturing, modern chemicals, mineral resource development, channel logistics, and culture & tourism); and building and strengthening four emerging chains (aerospace, nuclear and nuclear-related industries, digital economy, and biomedicine). The aim is to establish a "1+6+4" industry chain investment promotion system.

Key Projects for Promotion

01.The 5GWh Energy Storage System Integration and PCS System Integration Production Project in Jiuquan Economic and Technological Development Zone

The project aims to construct two 5GWh grid-forming high-voltage cascade energy storage integration production lines and one 1GW grid-forming PCS system integration production line.

02.Yumen City 5,000 Tons/Year Fluoropolymer Film Project (Juhua Upstream and Downstream Project)

The project aims to construct production lines with an annual output of 2,000 tons of FEP film, 1,500 tons of PTFE film, and 1,500 tons of PVDF film, supported by warehousing facilities, environmental treatment systems, etc.

03.Guazhou County 150,000-Ton Green Methanol Project

The project aims to construct a water electrolysis hydrogen production plant with an annual output of 13,500 tons, along with supporting hydrogen and oxygen storage equipment, and a biomass gasification plant with an annual processing capacity of 150,000 tons.

Contact Person: Wang Li 13369371897

ZHANGYE CITY

Located in the middle of the Hexi Corridor, Zhangye City enjoys the reputation of "Golden Zhangye". With a land area of 38,600 square kilometers and a permanent population of 1.1 million, it serves as a national ecological security shelter in the western region of China. In 2025, its GDP reached RMB 72.4 billion. Boasting prominent agricultural advantages, Zhangye City produces one out of every two corn seeds in China, and its green vegetable output ranks fourth nationwide. It is also rich in wind and solar energy and mineral resources, with cultural and tourism resources ranking among the top in the province. Based on the functional positioning of building a national ecological security shelter in the western region of China, cultivating a national highland for modern seed industry development, establishing a major national comprehensive energy base, and developing an internationally renowned tourism destination, the city aims to build a distinctive modern industrial system and accelerate the formation of a new industrial landscape featuring comprehensive energy and equipment manufacturing, intensive processing of agricultural and livestock products, new materials, and culture, tourism, and wellness.

Investment Promotion Direction of Key Industries

01 Comprehensive Energy and Equipment Manufacturing Industry

Key focus: Projects of hydrogen-based chemicals, energy storage equipment manufacturing, and high-end electrical equipment manufacturing, etc.

02 Agricultural and Livestock Product Intensive and Deep Processing Industry

Key focus: Centering on advantageous industries such as corn seed production, green vegetables, and livestock breeding, the city focuses on the midstream links of the industrial chain to attract projects in product R&D, intensive processing, sales and trading, and smart animal husbandry.

03 Cultural Tourism and Health & Wellness Industry Chain

Key focus: Projects involving the upgrading of cultural and tourism experiences, the cultivation of new business formats, supporting facilities for self-driving tours, the optimization of accommodation systems, and empowerment by cultural and creative industries.

Key Projects for Promotion

01. The 50,000 Tons/Year Lithium-Ion Battery Silicon-Carbon Anode Material Production Project

As a part of the new material industry, the project has a total investment of RMB 5.5 billion. It aims to introduce enterprises to the Zhangye Economic and Technological Development Zone to construct silicon-carbon composite material synthesis and coating workshops. Supporting facilities will include fluidized bed reactor deposition equipment, high-purity grinding and classification equipment, an R&D and testing center, and environmental protection facilities.

02. The 150,000 Tons/Year Basalt Fiber Project

As a part of the new material industry, the project has a total investment of RMB 1.2 billion. The plans include introducing enterprises to build a new production base and an R&D center in Gaotai County, and constructing 30 basalt fiber production lines and related ancillary facilities.

03. Intelligent Husbandry Base Construction Project of the Fennel-Fed Sheep Industrial Park

As a part of the specialty agricultural products and food processing industry, the project has a total investment of RMB 31.8 million. The plan is to introduce enterprises to the Ganzhou District to construct standardized smart sheep sheds with a floor area of 32,000 square meters. It involves building a system of smart breeding networks for sheep, equipped with functional facilities, such as galvanized sheet smart feed towers, forage storage areas, manure treatment zones, and veterinary rooms.

Contact Person: Lin Na 18293640525

BAIYIN CITY

Baiyin City, enjoying the reputation of the "City of Copper," administers three counties and two districts, covering a total area of 20,100 square kilometers. With a permanent population of 1.4801 million, it serves as the core of the Lanzhou-Baiyin economic circle and a hub for the Silk Road cooperation. Its regional GDP reached RMB 78.923 billion in 2025. Baiyin City is rich in resources and energy, with 45 types of minerals discovered. It is designated as a national-level integrated geological exploration area. The Yellow River flows through the territory for 258 kilometers. The city has built 31 large and medium-sized irrigation areas and boasts 207 varieties of high-quality and geographical indication agricultural products. It boasts hydropower resources of 3 million kW and an installed power generation capacity of 12.479 million kW. With a profound industrial foundation, the city has established 12 key industrial chains and 42 sub-chains, creating one RMB 100-billion-level, two RMB 50-billion-level, and five RMB 10-billion-level industrial clusters. Its non-ferrous metal industrial cluster has been elevated to the national level, and the "One Zone, Six Industrial Parks" layout has attracted the settlement of over 600 enterprises.

Investment Promotion Direction of Key Industries

01 Nonferrous Rare Earth Industry Chain

Key focus: Projects that extend and strengthen the non-ferrous metal and rare earth industrial chains.

02 Circular Chemical Industry Chain

Key focus: Projects of coal chemicals, phosgene chemicals, zero-carbon plant factories, etc.

03 Biomedical Industry

Key focus: High-quality biomedicine projects to build a biopharmaceutical industrial cluster with local characteristics.

Key Projects for Promotion

01. Baiyin City High-Purity Rare Earth Metal and Special Alloy Production Line Project

As a part of the non-ferrous and rare earth industry, the project leverages non-ferrous metal and rare earth resources in Baiyin City and surrounding areas to supply basic metal raw materials for the project.

02. Baiyin City 10,000 Power Transformers/Year Production Base Project

The project is a part of the equipment manufacturing industry. Baiyin City boasts a non-ferrous metal production capacity exceeding 1 million tons and installed new energy capacity of over 7 million kW, ensuring ample raw materials and a vast market.

03. Baiyin City Zero-carbon Plant Factory Construction Project

As a part of the circular chemical industry, the project utilizes the by-product fertilizer from Gansu Jingmei Energy Company's ammonia-based flue gas desulfurization and decarbonization, along with waste heat, water, and CO for production.

QINGYANG CITY

Located at the geometric center of China's map, Qingyang City serves as a vital node in the Guanzhong Plain urban cluster and a regional hub for the Shaanxi-Gansu-Ningxia border area. Notably, it is the only prefecture-level city in China with four major national strategic projects. Administering one district and seven counties, the city covers a total area of 27,000 square kilometers with a permanent resident population of 2.12 million. It boasts transportation convenience, offering direct flights and high-speed rail connections to over 50 cities. With a 2025 regional GDP of RMB 123.532 billion, the city is abundant in oil, coal, gas, wind, and solar resources. It serves as the core zone of the Longdong Comprehensive Energy and Chemical Industry Base. As a pivotal node in the East-to-West Computing Resource Transfer national project, its data center metrics rank at the forefront of the country's eight major hubs. Implementing the strategy of empowering itself with industrial vitalization and manufacturing strength, the city has strategically allocated all essential resources while cultivating a favorable business environment.

Investment Promotion Direction of Key Industries

01 Digital Economy Industry

Key focus: Projects in computing power infrastructure, artificial intelligence, and data elements. In the low-altitude economy sector, the focus is on attracting complete machine manufacturing and system integration projects.

02 Comprehensive Energy and Chemical Industry

Key focus: Projects related to coal mine construction, new energy development and utilization, oil-coal-gas chemicals, specialty chemicals, new materials, and hydrogen-based energy.

03 Equipment Manufacturing Industry

Key focus: Equipment manufacturing projects for sectors such as petrochemical engineering, new energy, energy storage, intelligence systems, data centers, electric power, the low-altitude economy, and modern agricultural machinery.

Key Projects for Promotion

01. Green Data Center Project in Qingyang Data Center Cluster

With a total investment of approximately RMB 500 million, the project involves constructing a modular, prefabricated green data center with over 3,000 racks and a PUE of 1.2 or lower. The average investment payback period is around nine months.

02. Server Manufacturing Industry Project in Qingyang Data Center Cluster

With a total investment of approximately RMB 1.5 billion, the project focuses on the production of servers (including CPUs and GPUs) and supporting components such as memory, storage, motherboards, and cooling systems. The investment payback period is approximately 2-3 years.

03. The 60,000 Tons/Year Joint Production PBS/PBAT/PBT Project

With a total investment of RMB 2.5 billion, the project adopts the direct esterification-polycondensation process to construct a combined production unit with an annual capacity of 20,000 tons of PBS, 20,000 tons of PBAT, and 20,000 tons of PBT, expecting to achieve an annual output value of approximately RMB 2 billion.

DINGXI CITY

Dingxi City serves as an important zone of influence for the Lanzhou-Xining City Cluster and the Guanzhong-Tianshui Economic Zone, as well as a key transportation hub in western China, covering an area of 19,600 square kilometers. In 2025, its GDP reached RMB 79.39 billion. Dingxi City boasts nationally leading Chinese medicinal materials and potato industries, maintaining a stable potato planting area of 3 million mu (200,000 hectares) and an output of 5 million tons, with its seed potato production capacity accounting for half of the national total. Its Chinese medicinal materials industry features outstanding advantages across the entire chain, with an annual planting area reaching 2.37 million mu (158,000 hectares), a total yield of 500,000 tons, and an output value of RMB 55.3 billion. The exploitable potential of wind, solar, and hydro energy resources totals 15 million kW. More than 50 types of mineral resources have been proven, including 350 million tons of rock salt reserves in Zhangxian County and over 100 tons of proven gold reserves in the Zhaishang Gold Mine of Minxian County. Adjacent to Lanzhou City, it boasts remarkable transportation advantages of "eight major transportation routes being established and providing access to sixteen key destinations". With an excellent business environment, it is a prime destination for investment and business development.

Investment Promotion Direction of Key Industries

01 Traditional Chinese Medicine Industry

Key focus: Projects in traditional Chinese medicine cultivation and pharmaceutical equipment R&D and manufacturing; production of traditional Chinese medicine formula granules, proprietary Chinese medicines, and big health products; extraction and refinement of active ingredients of Chinese medicinal materials; raw herb processing (slicing) of Chinese medicinal materials; and traditional Chinese medicine-based health and wellness services.

02 Potato Industry

Key focus: Projects for potato starch extraction, modified starch production, wide vermicelli processing, and instant potato food processing.

03 Grassland Animal Husbandry

Key focus: Projects involving forage grass planting and processing, as well as the development and production of meat and dairy products.

Key Projects for Promotion

01. Potato Whole Industry Chain Project in Anding District, Dingxi City

As a part of the cultural tourism industry with an investment of RMB 1 billion, the project is expected to generate annual sales revenue of RMB 1 billion and a profit of about RMB 300 million upon completion.

02. Phase I (Core Area) Project of Longxi County Traditional Chinese Medicine Big Health Industrial Park

As a part of the cultural tourism industry with an investment of RMB 850 million, the project is expected to generate annual operating revenue exceeding RMB 200 million upon completion.

03. Dingxi Hi-tech Industrial Development Zone Steel-Plastic Composite Pipe R&D and Production Base Project

As a part of the equipment manufacturing industry with an investment of RMB 200 million, the project is expected to generate annual operating revenue exceeding RMB 150 million upon completion.

LONGNAN CITY

Located in southeastern Gansu Province, Longnan City serves as a vital corridor connecting the northwest and southwest regions of China. It is the only area in Gansu situated entirely within the Yangtze River basin, thus being renowned as the "Jiangnan of Gansu", resembling the picturesque southern region of China. Boasting a profound cultural heritage, it is the birthplace of the cultural ancestor Fuxi, the cradle of pre-Qin culture, the battleground for Zhuge Liang's six military expeditions to Qishan Mountain, and one of the areas most extensively traversed by the Red Army during the Long March. With an excellent natural ecosystem and a forest coverage rate of 45.27%, it serves as a crucial water conservation area for the upper reaches of the Yangtze River. It hosts 25 scenic spots rated 4A or above, along with rare species such as giant pandas and golden monkeys. Endowed with superior resources, it was famously termed "a complex zone of treasures" by the renowned geologist Li Siguang. It possesses 34 proven metallic and non-metallic minerals, with reserves of lead, zinc, and gold ranking among the top ten in China. Abounding in over 400 types of Chinese medicinal materials, such as *Codonopsis pilosula* and *Angelica sinensis*, it is hailed as a "Natural Pharmacy." It ranks first nationally in the production of prickly ash and olives, and second in walnuts, making it a promising destination for investment and business development in the western region of China.

Investment Promotion Direction of Key Industries

01 Characteristic Agricultural Industry

Key focus: High-value-added projects such as specialty planting and breeding, intensive processing of agricultural products, modern Chinese medicine manufacturing, and big health product production.

02 Industrial Manufacturing Industry

Key focus: Projects involving PV modules, energy storage equipment, new ceramic materials, non-ferrous metal mining and metallurgy, and baijiu liquor brewing.

03 Cultural Tourism and Health & Wellness Industry Chain

Key focus: Projects related to major scenic spot development, live-action performances, study tours, the integration of agriculture and tourism, and large-scale health and wellness complexes.

Key Projects for Promotion

01. Dangchang County Antimony Industry Chain Construction Project

Investment: RMB 1 billion

Supporting production factor: Project site selection has been completed

Benefit forecast: The estimated annual revenue is RMB 300–800 million.

02. Lixian County Qishan Three Kingdoms Cultural Industrial Park Project (Phase II and Phase III)

Investment: RMB 1 billion

Supporting production factor: Phase I of the project was completed in October 2024

Benefit forecast: Upon completion, the project will accommodate 350,000 tourists annually, generating annual operating revenue of RMB 150 million and an annual profit of RMB 60 million.

03. Wenxian County Yujiawan-Fanchang Expressway Construction Project

Investment: RMB 12.8 billion

Supporting production factor: With the land-use pre-examination and site selection approvals in place, the project's utility requirements (water, electricity, roads, and networks) are fully ensured.

Benefit forecast: Estimated total toll revenue is expected to reach around RMB 24.8 billion during the 30-year operation phase, yielding an average of RMB 830 million per year.

GANNAN TIBETAN AUTONOMOUS PREFECTURE

Situated at the junction of Gansu Province, Qinghai Province, and Sichuan Province, Gannan Tibetan Autonomous Prefecture serves as a crucial ecological barrier in the upper Yellow River and a vital node along the Southern Silk Road and the Tang-Tubo Ancient Road. It is renowned as a great ecological barrier, a grand ethnic garden, a major cultural landmark, and a treasure for tourists. Boasting a vegetation coverage of over 94%, the autonomous prefecture is home to world-class ecological assets such as Gahai Lake, Maqu Grassland, and Zhagana Mountain. Together with cultural and revolutionary heritage sites like the Labrang Monastery and the Lazikou Campaign Memorial Site, these resources weave a magnificent ecological tapestry underpinned by profound historical depth. The autonomous prefecture enjoys distinct locational advantages: it is situated centrally to connect three provinces while linking the eastern and western regions of China. With Gannan Xiahe Airport in operation and the accelerated construction of high-speed railways and expressways, a comprehensive "three vertical and three horizontal" transportation network has largely taken shape. It has been successively recognized as "China's Most Distinctive Ethnic Tourism Destination" and a "Top Choice for Road Trips in China." Its cultural and tourism industry aligns well with prevailing development trends, attracting over 30 million tourist visits annually.

Investment Promotion Direction of Key Industries

Key focus: High-quality enterprises specialized in project development, operational management, and infrastructure construction, driving the industry's growth in both scale and quality. The overall aim is to ensure full-chain development of the cultural and tourism industry.

Key Projects for Promotion

01. Lintan County Yeliguan Tourist Area Sightseeing Cable Car and Trackless Sightseeing Train Construction Project

Plans include the construction of cable cars, sightseeing elevators, tent campsites, and other supporting tourism facilities.

02. Zhuoni County Dayugou Scenic Area Qiabuchuan Leisure Tourism Development Project

It is proposed to build a high-end comprehensive road trip campsite, a tourist reception center, a tourism product exhibition center, distinctive Shanzi Tibetan-style homestays, and other supporting facilities.

03. Diebu County Cuomei Peak Scenic Area Development Project

Plans include the construction of infrastructure and service facilities, such as a tourist service center, connecting roads, an ecological parking lot, and walking trails, with operations to be entrusted.

LINXIA HUI AUTONOMOUS PREFECTURE

Linxia Hui Autonomous Prefecture, historically known as Fuhun, covers an area of 8,169 square kilometers. It administers one city and seven counties, with a registered population of 2.501 million, featuring the harmonious coexistence of 42 ethnic groups. Abundant in cultural sites, such as those of Majiayao and Qijia culture, the region boasts 11 items of national intangible cultural heritage and enjoys such acclaimed titles as the "Hometown of Painted Pottery in China." Linxia is globally known for the echoing melodies of "Hua'er" (literally "flowers," a traditional folk song art form), the Bingling Temple Grottoes, and Linxia Global Geopark, and it's the home to the Hezheng Mammalian Fossil Sites. A 400-kilometer scenic highway connects 143 tourist attractions, making the area a summer paradise and wellness retreat. With a high proportion of young adults and a well-developed vocational education system, the autonomous prefecture can provide strong human resource support for related industries. Currently, the autonomous prefecture is closely focusing on the functional positioning of five aspects (ethnic unity and progress, organic agri-livestock processing and labor-intensive industry clusters, domestic tourism, and ecological restoration for the Yellow River's upper reaches) to drive high-quality economic development. From January 1, 2026, to December 31, 2030, newly established enterprises in Linxia Hui Autonomous Prefecture falling within the 14 categories of the Catalog of Key Encouraged Industries will be exempt from the local share (40%) of corporate income tax for the first three years, starting from their first generated revenue. For the fourth and fifth years, this share will be collected at half the rate.

Investment Promotion Direction of Key Industries

01 Cattle and Sheep Whole Industry Chain

Key focus: Projects involving large-scale breeding, intensive processing, by-product development, leather processing, brand marketing, and supply chain system construction.

02 Cultural Tourism and Health & Wellness Industry Chain

Key focus: Projects for eco-tourism, cultural experiences, health and wellness resorts, homestay clusters, and comprehensive scenic area development.

03 Food Processing Industry

Key focus: Production and processing projects for Halal food, prepared dishes, and ethnic specialty goods.

Key Projects for Promotion

01. Yongjing County Land-Based Circular Economy Aquaponics Integrated Agriculture Industrial Park Project

As a part of the specialty crop industry, the project has an investment of RMB 1.1 billion. With a planned area of approximately 1,100 mu (73.33 hectares), the project will be constructed in three phases. It mainly includes the construction of 240 smart agricultural circular economy greenhouses, a production zone, an agricultural tourism experience zone, and supporting facilities such as vegetable processing, cold storage, logistics support, warehousing logistics, seedling greenhouses, and park roads.

02. Guanghe County Leather Products Manufacturing Project

As a part of the entire cattle and sheep industry, the project boasts an investment of RMB 200 million. Leveraging the advantages of standardized workshops in the Guanghe Economic Development Zone and the abundant labor force, the project aims to build a production line for downstream leather products such as luggage, leather shoes, leather goods, and sofas.

03. Jishishan County Prickly Ash Deep Processing Project

As a part of the food processing industry, the project involves an investment of RMB 200 million. It covers a total area of 46 mu (3.07 hectares) with a floor area of 28,000 square meters. Infrastructure construction includes a new research building, an inspection and testing center, preservation and storage warehouses, and deep-processing workshops for prickly ash. Production lines for *Zanthoxylum bungeanum* seed oil, prickly ash vinegar, and prickly ash seasonings will be introduced.

LANZHOU NEW AREA

Lanzhou New Area is the fifth national-level new area in China approved by the State Council of the People's Republic of China, the first in the northwestern region of China, and the only one located west of China's northeast-southwest line (Hu line). It shoulders the strategic missions of serving as an important economic growth pole in northwest China, a key national industrial base, a major strategic platform for westward opening-up, and a demonstration zone for undertaking industrial transfer, serving as a vital gateway for Gansu's opening up. Located at the core of the Lanzhou-Xining-Yinchuan symbiotic urban belt, it radiates across northwest China and connects Asia and Europe, boasting obvious locational advantages. With abundant land and energy resources, as well as rich scientific and educational assets, it is home to 19 academic institutions and 165,000 faculty members and students. It hosts 193 innovation platforms of various types and 184 hi-tech enterprises, with an R&D investment intensity of 3.8%. High-speed rail, the airport, and expressways form a comprehensive multi-dimensional transportation network. Possessing open platforms such as a comprehensive bonded zone, an airport, and a railway port, it engages in trade with over 80 countries. With a sound industrial ecosystem and robust service guarantees, it has been repeatedly rated as the "Most Attractive New Area for Investment."

Investment Promotion Direction of Key Industries

01 New Materials Industry

Key focus: Using the new energy battery industry as a breakthrough point and building upon the existing silicon metal, copper, aluminum, and precious metal processing industries in Lanzhou New Area, it focuses on cultivating five major industrial chains: new energy materials, common metal materials, precious metal materials, frontier new materials, and new building materials.

02 Modern Chemical Industry

Key focus: Industry sectors such as petrochemical engineering, fine chemicals, new chemical materials, electronic chemicals, and phosgene, as well as integrated upstream and downstream supporting industries. It aims to deepen the five major industry sectors: basic chemicals, pharmaceutical raw materials and intermediates, pesticide raw materials and intermediates, new chemical materials, and circular chemicals.

Key Projects for Promotion

01. The 500 Million Square Meters/Year High-Performance Wet-Process Li-ion Battery Separator & Coating Integrated Project

The project occupies approximately 200 mu (13.33 hectares) of land and is planned to construct facilities with an annual capacity of 500 million square meters of high-performance lithium-ion battery separators. The project mainly includes the construction of production workshops for wet-process separator base membranes, separator coating and processing, slitting and inspection, as well as auxiliary production facilities and supporting facilities such as R&D and quality centers.

02. The 50,000 Tons/Year Adiponitrile Project

The project covers an area of 180 mu (12 hectares). Its main construction content includes a primary production line with an annual output of 50,000 tons of adiponitrile, along with supporting facilities such as a hydrocyanic acid preparation unit, a by-product recovery system (producing 1,200 tons of methylglutaronitrile, 1,000 tons of 2-methylpentamethylenediamine, 4,926 tons of 3-methylpyridine, and 21,800 tons of ammonium sulphate annually), as well as auxiliary facilities for raw material pretreatment, separation and purification, and an R&D center.

03. The 50 Million Sets/Year Precision Structural Components (Aluminum Housings) Intelligent Manufacturing Project for New Energy Batteries

The project covers approximately 180 mu (12 hectares) of land and plans to construct an intelligent manufacturing facility with an annual capacity of 50 million sets of new energy battery precision structural components (aluminum housings). The main construction includes aluminum housing stretching and forming workshops, precision machining and cleaning workshops, top cover component production workshops, surface treatment workshops, a technology R&D and quality inspection center, and supporting facilities.
